PRICE 2 CENTS

BURNED BODY IS THAT OF GIRL, POSSIBLY ONE TAKEN FROM GRAVE

Spade and Cloth, Believed to Be Part
of Shroud, Found at Garage
by Detectives.

TORSO AT FIRST SAID TO BE THAT OF MISSING MAN

Disappearance of Remains of Miss Celestine
Schneider, 18, From Mount Hope Cemetery,
Linked With New Discovery by Police
—Garage Owner Missing.

The charred torso found in the ruins of a fire that destroyed a
garage at Oakville, St. Louis County, at 12:30 a. m., yesterday, is
that of a girl and not of Harry Brenn, 27 years old, proprietor
of the garage.

City detectives of the homicide squad believe it to be the
remains of Miss Celestine Schneider, 18, of 6317 South Broadway,
who died Aug. 30 and whose body was stolen, presumably Monday
night, from Mount Hope Cemetery, Lenny Ferry and Mount Olive
roads, about four miles from Brenn's garage.

The discovery that the torso is that of a girl was made by
Dr. T. L. Carriere, coroner's autopsy surgeon, who accompanied
the homicide squad on its investigation today to an undertaking
establishment in Luxembourg and made an incision in the torso to
determine the sex.

Immediately after Dr. Carriere's discovery the detectives,
Lynch, Lyena and Shelton, went to the garage and found in the
ashes a spade with earth on it, which, they asserted, matched the
earth taken from the girl's grave, and a piece of cloth that they
believe to be part of a shroud.

Father Questioned.
August Schneider, a meatcutter,
father of the girl, was taken into
custody at his home last night and
questioned, but declared he knew
nothing of the theft of his daughter's
body; of the fire at the garage,
or that he was acquainted with
Brenn. He is being held for fur-
ther questioning, due to a remark
alleged to have been made by him
to the effect that he predicted his
wife would have "bad luck" because
he did not give him any of the \$400
insurance on the girl's life.

The detectives were prompted to
work on the case on the remote tho-
ught that the torso found in the gar-
age might possibly be that of the
body stolen from the cemetery. They
found that Brenn had not been at
home for several hours before the
fire, and today were unable to find
him. Brenn, who was said to have
come to St. Louis to purchase
furnishings, was not found.

It was learned today that Brenn
took out a \$5000 insurance policy on
his life through the local agent of a
Kansas City company July 31 last,
and a joint policy for \$1000 on his
life and that of his wife, Gertrude,
in another company, May 27. Mr.
and Mrs. Winheim of Oakville, who
own the house in which the Brenn
lived, said Mrs. Brenn told them her
husband's war risk insurance policy
presumably for \$10,000, had been
destroyed in the fire, having been in
a desk in the garage.

Winheim, who was a member of
the coroner's jury that last night be-
gan an inquest into the supposed
death of Brenn, said that Brenn came
to Oakville last April and had been
behind in payments of rent (\$15 a
month) for several months. Brenn
came to Oakville from Ten Broek,
in Jefferson County, Mo., where he
lived on a farm with a family named
Brenn, who had adopted him and his
sister, his father having died in
1918.

Wife Tells of Call.
At a coroner's inquest at Luxem-
bourg last night, Mrs. Brenn testified
that her husband had received a call
to road service on an automobile
about a mile north of Oakville, on
the Telegraph road, about 5 p. m.
yesterday, and that she heard no more
of him. Mrs. Brenn speaks English
with difficulty. Brenn was a soldier
in the A. E. F. and married her at
his home in Germany.

The theft of Miss Schneider's body
from Mount Hope Cemetery was dis-
covered yesterday afternoon by Her-
bert Brun, an employee of the ceme-
tery who was cutting grass near the
grave. He noticed the open grave
and then found the casket and hid
the dead patch about 200 yards
west of the grave. Brun notified
Detectives, Edward Powers, who saw
the body had been removed from
the casket, which contained
a crucifix. Powers notified the
city authorities and they notified
the St. Louis police.

Girl's Mother Notified.
Mary Jane Schneider, the
mother, who is employed as a
housekeeper in University City,

EXPLOSION AT TIRE SHOP UNEXPLAINED; LOSS IS \$95,000

Building at Locust Boulevard
and Compton Avenue
Wrecked — Streets Filled
With Glass.

COMPRESSED AIR TANKS STILL INTACT

Telephone Pole Broken by
Blast; Passing Negro In-
jured by Debris; No One
in Building at Collapse.

Investigation today brought no ex-
planation of the explosion which
wrecked the building of the Inde-
pendent Tire Co., 3152 Locust bou-
levard, southeast corner of Compton
avenue, at 8:33 last night, causing a
loss estimated at \$75,000 to the
building and contents, and an addi-
tional \$20,000 damage to other con-
cerns along automobile row.
"It looks like T. N. T.," Fire Chief
Panzer said, after having ascertained
that the company's two compressed
air tanks were intact, and that the
illuminating gas connection had been
shut off outside the building.
A negro, formerly employed by the
tire concern, was questioned this
morning at the Laclede Avenue Police
Station. He denied having any
knowledge of the cause of the explo-
sion.

Building a Pile of Debris.
The building, an old three-story
residence with a one-story business
front, is now only a pile of debris.
Small pieces broke out in different
places of the pile at times during the
night, but there was at no time a
high blaze, and the firemen's work
was over at 4 a. m.

The house was destroyed on Wash-
ington boulevard and Olive street
by cross-streets west and east of the
scene. Locust boulevard and Compton
avenue, in the vicinity of the
wrecked building, were full of glass.

The police satisfied themselves, by
a check on the company's employees,
that no one was in the building when
it collapsed. A passing negro, David
Gibbs, 22, Walnut street, was
struck on the head by debris, the pistol
was cut and stunned. Two minor
automobile accidents followed the
roving of the street, and in one of
them Harry Faulkner of Granite
City was cut on the hands and face
by glass from a windshield. The au-
tomobiles ran into the ropes, and
broke the light globes on the poles
to which the ropes were tied.

Telephone Pole Broken.
A telephone pole on Compton ave-
nue, near the building, was broken,
and pulled down with it a pole on
Compton on the north side of Locust,
the latter pole striking the top of
a parked automobile. The pole was
held in a leaning position by the
wires.

Great piles of fires are conspicu-
ous in the debris. While fires were
burning during the night the smell
of burning rubber was noticeable at
times. A detail of policemen is pro-
tecting the exposed stock.

Several minor explosions followed
the first loud explosion, according to
persons in the neighborhood. The
first explosion was the one which
caused the collapse of the building
and broke the glass of surrounding
buildings.

Other Concerns' Losses.
On adjoining corners the United
States Tire Co., 3149 Locust, had
damage estimated at \$3000, most of
its windows being broken. The Fer-
rier Automobile Equipment Co., 3200
Locust, reported \$2500 damage, and
the Firestone Tire and Rubber Co.,
No. 3201, \$1000 damage. The Kar-
nell Motor Car Co., No. 3145, had
damage estimated at \$3000. Other
neighboring concerns reported
damage from \$50 to \$1500.

William Bonnett, secretary of the
Independent Tire Co., was the last
man to leave his building last
night. He said today that he "rang
out" the signal of the Missouri Dis-
patch Telegraph Co. as he left. The
signal record of the company shows
that this was at 8:08, 25 minutes be-
fore the explosion. Bonnett said he
first learned of the explosion at 8
a. m., when a friend telephoned to
his home, 3822 Shaw avenue, to in-
quire whether he was safe.

After the ringing of the signal,
which indicated that the building
was empty, no one could have en-
tered or left the building without
causing a burglar alarm to ring, the
managers of the telephone company
said.

Firm in Building 10 Years.
Israel Reifler of 615 1/2 Waterman
avenue, president of the Independent
Tire Co., is in Columbus, O. His son,
Carl J. Reifler, sales manager, said
the company had occupied the build-
ing 10 years. He said he knew of no
explosive material about the place,
except possibly a quantity of tire
cement, which he did not think could

3 BANK ROBBERS SLAIN, TWO SHOT, \$74,000 RECOVERED

Citizens Fire on Five Men
After Holdup at Eureka
Springs, Ark., at Noon in
Response to Alarm.

ALL ROBBERS EITHER KILLED OR CAUGHT

Jeweler, Whose Store Ad-
joins the Building, Only
Citizen Hurt, Escapes With
Powder Burns.

By the Associated Press.
EUREKA SPRINGS, Ark., Sept.
27.—Three bank robbers were killed
and two others seriously shot this
noon in a running battle with citi-
zens after the five men had robbed
the First National Bank of this place
of \$14,000 in money and \$50,000 in
bonds. The money and bonds were
recovered.

All members of the gang were
either killed or captured.
E. G. Smith, cashier of the bank,
sounded the alarm by stepping on a
section of the bank floor which was
connected with the burglar alarm.

Alarmed citizens met the robbers
with shotgun and revolver fire as
they emerged from the bank with
their loot, carrying before them the
bank's teller as a shield. The robbers
retreated the jeweler's store.

Ernest Jordan, jeweler, whose
store adjoins the bank, received
powder burns.

Men Killed and Captured.
A dead one:
St. Wilson, 40 years old, Cook-
ston, Ok.; George Price, 40, Cook-
ston; Charles Price, 25, brother of
George Price, also of Cookston.

The wounded are: Mark Hen-
rich, 34, of Park Hills, Mo., and a
man named Cowan, driver of one
of the robbers' two cars. His resi-
dence is unknown.

None of the half dozen citizens
who engaged the men in the fight
were wounded.
All of the \$14,000 in cash and
\$50,000 in Liberty bonds with which
the robbers ran from the bank at
the opening of the fight was re-
covered.

The men drove into town over the
mountains in two cars, one a small
car bearing an Oklahoma license
and the other a larger touring car.
Going directly to the bank, all with
the exception of Cowan, who was
driving the small car, went into the
bank. None was masked.

Cashier Gives Alarm.
They aimed pistols at Smith, or-
dering him to hold up his hands. He
complied, but at the same time
placed his foot on a button which set
off the bank's burglar alarm on the
street in front of the bank, in the
Bank of Eureka and at the tele-
phone exchange in the Basin Park
Hotel.

Wilson then herded Smith, three
other bank employees and four cus-
tomers into a rear room, where he
stood guard over them while his
three accomplices gathered together
the cash and Liberty Bonds lying in
the banking room.

C-2 Reaches San Francisco.
Special to the Post-Dispatch.
SAN FRANCISCO, Sept. 27.—The
United States Army dirigible C-2,
which recently completed a trans-
continental flight, arrived at Crissy
Field here today from Los Angeles
at 10:45 a. m. The plane left Rose-
mead, near Los Angeles, at 1 a. m.
today and cruised up the coast line
to Monterey Bay, striking across
country from there to San Francisco.

**FAIR TOMORROW, LITTLE
CHANGE IN TEMPERATURE.**

KING CONSTANTINE ABDICATES GREEK THRONE ON DEMAND OF REBELTING TROOPS

KEMAL TELLS THE BRITISH HE KNOWS NEUTRAL ZONE

Replying to Ultimatum He
Evades Question of With-
drawal of Turkish Troops
—Says He Consents in De-
sire to Avoid Incidents.

TURKS CONTINUE TO MENACE STRAITS

Both They and British Are
Intrenching in Neutral
Zone—Turks Expect to
Concentrate Troops by
Sept. 30.

By the Associated Press.

LONDON, Sept. 27.—Musta-
pha Kemal Pasha, replying to
Gen. Harington's ultimatum,
evades the question of the with-
drawal of the Turkish troops as
demanded, says a Reuter's dis-
patch from Constantinople, but
declares that Kemal has no
knowledge of a neutral zone. He
complains of the action of the
British in destroying buildings
and roads, and concludes by
saying he consents with the allies
in the desire to avoid incidents.

The Turkish Nationalists con-
tinue to menace the Straits of
the Dardanelles, and are in-
trenching in the neutral zone,
which they refuse to recognize. The
British military command has given
them 48 hours in which to retire, and
is preparing three lines of intrench-
ments in the region from Pandik to
Yarimje, along the Anatolian Rail-
way. This region has been pro-
claimed a zone of operations by the
British.

More Nationalist troops have
drifted into the Chanak zone, ac-
cording to official advices from Con-
stantinople, but this is not regarded
as authoritative quarters as aggra-
vating the situation much, and the
opinion is expressed in these quarters
that trouble will be avoided.

Kemalists Capture Bigha.
In addition to Ervan Keul and Kun-
Kaleli, the Kemalists are in posses-
sion of Bigha. A special dispatch,
not confirmed from any other source,
says occupation of the latter place
was accompanied by the massacre of
the entire Greek and Armenian popu-
lation numbering about 900.

The British commanders are con-
fident they can keep the Turks from
crossing the straits or capturing Con-
stantinople until the arrival of the
formidable reinforcements now on
the way.

The British Government is watch-
ing developments closely. The Cabinet
Ministers and defense experts meet-
ing daily for consultation.
In one battalion each of the Cold-
stream Guards, Royal Fusiliers and
Rifle Brigade are leaving Aldershot
today for the Near East and other
troops will follow Saturday. The
Highland Light Infantry and the
King's Scottish Borderers are on the
way from Alexandria to Chanak, the
main British position on the Dar-
danelles.

Naval reinforcements continue to
stream toward the straits. The third
torpedo boat destroyer flotilla is un-
der way. Some of the heavier units
moving include the dreadnoughts
Revenge, Ramilies, Centurion and
Malaya and the aircraft carrier Vin-
dicator. The light cruisers Ceres,
Carysfort and Caledon are under or-
ders at Malta. The torpedo flotilla
is accompanied by the torpedo boat
destroyers Rocket, Tuscany and Tri-
bune and one submarine.

British Position at Chanak.
A dispatch to the Times says:
"The situation here is harder. The
Turks who re-occupied Ervan Keul
are showing a determined attitude
and it is evident that fire would be
Continued on Page 3, Column 3.

BALKAN WAR WITH RUSSIA IN IT IF RUMANIANS INTERFERE, VIEW IN MOSCOW

(Copyright, 1922.)

MOSCOW, Sept. 27.—If Rumania makes a move to
interfere in the Balkan crisis—
and some highly placed Russians
believe she is preparing—there
will be another Balkan explosion
that must lead to a big war, is
the view here. In such event,
Russia, it can be said, will not
be a laggard.

The Russian Government wants
a voice in the discussion of the
future of Constantinople and the
Dardanelles, and is piqued with
the lukewarmness shown by the
British to their proposal that
Russia should be included in any
conference. The Russians, how-
ever, do not believe Mustapha
Kemal will forget them, if, as
dispatches here indicate, he is
going to make a deal with the
British.

Last night 1000 Turks, Hindus,
Armenians, Astrakans and other
dusky Near East emigrants,
garbed in their colorful native
costumes, paraded Moscow, cele-
brating the victory of the "Turk-
ish Red Army" and "the eternal
union of Turkey and Russia." Thousands of Russians joined
the festivities and acted as
though Kemal had achieved a
Russian triumph.

Officials at the soviet foreign
office warmly congratulated the
celebrators on the "Red" army's
victory. They emphasized the
necessity for Russia's participa-
tion in any conference that de-
cided the fate of Constantinople
and the Straits.

MAYOR RENEGES ON "VISIT THE LAUNDRY" AND "BEAUTY" WEEKS

Request of Victor J. Miller, as
Counsel for Laundrymen,
Turned Down.

Mayor Kiel and his secretary are
having great difficulty finding
enough weeks in the year to accom-
modate requests of those who would
have proclamations issued designat-
ing the weeks in honor of special
occasions, and so great has become
the demand for such proclamations
that the Mayor has decided that
hereafter he will not make them
except for very special observances.

The latest request to come to his
notice is from Victor J. Miller,
treasurer of the Police Board and
counsel for the Allied Laundry In-
dustries of St. Louis, who would
have a "Visit-the-Laundry" week for
his clients, Oct. 2-7.

Mayor Kiel will decline to proclaim
in this case, as there is an applica-
tion to have this period designat-
ed as "National Beauty" week.
While the Mayor will not pro-
claim the "National Beauty" week
for St. Louis, he will issue a procla-
mation for "Visit-the-Laundry" week, Oct. 14-21,
in the interest of a national move-
ment for the welfare of girls.

BRITISH DENY DOOMED STRIPS ARE TO BE SENT TO NEAR EAST

Admiralty Declares Vessels Due to
Be Scrapped Are Not Being
Re-equipped.

LONDON, Sept. 27.—The British
admiralty yesterday emphatically de-
clined that any capital ships due to
be scrapped under the Washington
treaty were being sent to or pre-
pared for service in the Near East
or any other part of the world.

The admiralty further stated that
these ships long since have had their
stores unloaded, their ammunition
taken off and all parts dismantled
ready for the ship breaker, while
several others already have been broken
up.

PRINCE OF WALES SCLAFFS HIS SHOT AT ST. ANDREWS

Crowd Cheers as His Royal High-
ness "Plays Himself In" as Captain
of Royal and Ancient.

By the Associated Press.
ST. ANDREWS, Scotland, Sept. 27.—
The Prince of Wales "dubbed" his
tee shot in "playing himself in" as a
member of the Royal and Ancient
Golf Club today. In driving from
the first tee before a crowd of
golfers the Prince sclauffed his shot
(cutting into the ground with the
club before striking the ball), driv-
ing only 50 yards.

A great cheer went up when the
Prince carried out the ceremony.
One of the caddies retrieved the
ball and presented it to the Prince,
who rewarded him with the usual
sovereign. The ball will be molded
in gold and added to the club's col-
lection.

RULER SAID TO HAVE WITHDRAWN IN FAVOR OF THE CROWN PRINCE

Action Marks His Second Loss of
Throne Within Five Years; Cabi-
net Quits and Athens Is in Tur-
moil, With Revolutionists Calling
for a Pro-Entente Government.

By the Associated Press.

LONDON, Sept. 27.—Confirmation of King Constantine's ab-
dication has been received by the British Foreign Office, it was
announced this evening.

According to several reports from Athens, Constantine has
withdrawn in favor of the Crown Prince. His abdication, marking
his second loss of the throne within five years, was brought about
by the revolution which already had caused the downfall of the
Greek Government.

The revolutionary movement,
which is said to be led by Gen. Gon-
atas, is making headway in all di-
rections, but thus far without re-
ports of bloodshed. The Greek
fleet went over to the revolution-
aries.

Revolution Was Expected.
The insurrection, while not alto-
gether unlooked for, broke out in
a suddenness and had its inception
in moment objects—the former aimed at
the overthrow of the Government
and King Constantine and the latter
at the defense of Thessalonika.

Strangely enough, however, these
two revolts seem to have had dif-
ferent objects—the former aimed at
the overthrow of the Government
and King Constantine and the latter
at the defense of Thessalonika.

Revolt Spreads to Navy.
The revolt quickly spread to the
navy, and many of the warships re-
fused to answer queries sent out by
the admiralty. An airplane appeared
over Athens and showered the city
with pamphlets signed by Gonatas
and demanding the resignation of
the Government and the abdication
of the King. This created turmoil
in the capital, and crowds surged
through the streets and about the
public buildings. Then a number of
the war vessels started for Athens.

A large number of troops muti-
nied in Salonika, but this develop-
ment is said to have taken the form
of a military movement organized
in Thessalonika.

Official circles here believe for-
mer Premier Venizelos has had no
part in the revolt. Because of his
importance, however, and his large
personal following in Greece, it is
pointed out that he will hardly be
able to avoid figuring in the subse-
quent developments.

King Accepts Resignation of Cabinet When Given Ultimatum.

By the Associated Press.
ATHENS, Sept. 27.—King Con-
stantine has accepted the resignation
of the Cabinet, which quickly fol-
lowed the reception of two ulti-
matums from the cruiser Lemnos.

In accepting the resignation, the
King said he entirely put aside any
idea of resistance which would bring,
as a result, civil war in Greece. The
Crown Prince has abandoned his pro-
posed journey to Rumania for the
royal marriage.

An ultimatum from the warship
Lemnos, which arrived at Laurium,
on the peninsula southeast of Athens,
with revolting troops, demanded the
dissolution of the National Assembly
and the formation of a people's Cab-
inet friendly to the Entente.

A second ultimatum declared it
was considered the National Assem-
bly had already been dissolved, and
it demanded the creation of a pro-
Entente Cabinet whose members
would be appointed by the revolu-
tionaries.

If no favorable reply had been re-
ceived by today, midnight, it was de-
clared, disembarkation would be be-
gun.

Rebellion Reported in Albania;
Troops Marching on Capital.
By the Associated Press.
ROME, Sept. 27.—Rebellion has
broken out in Albania and the in-
surgents are marching from the
south toward the capital, at Trans-
according to unconfirmed reports re-
ceived from Albania, via Bari. The
Government troops have been re-
ported defeated. Steamers laden with
refugees are said to have left Valona
bound for Brindisi.

OBERAMMERGAU MOVIE OFFER
Villagers Reported Considering
\$1,000,000 Proposal from U. S.
By the Associated Press.
OBERAMMERGAU, Germany, Sept.
27.—This community is said to
be considering an offer of \$1,000,-
000 from American movie interests
for the motion picture rights of the
Passion Play. The villagers have
taken up the matter on account of
the heavy costs entailed in staging
the production this year.

NEIGHBOR TELLS OF DISPUTES IN MILLS' HOME OVER RECTOR

Woman Who Lives Next Door Says Choir Singer Once Flaunted Her Admi- ration for Pastor.

DECLARES MINISTER OFTEN TELEPHONED

Church Sexton, Whose Wife Was Found Slain With Clergyman, Again Ques- tioned by Authorities.

By Leased Wire From the New York
Bureau of the Post-Dispatch.

NEW YORK, Sept. 27.—The as-
sertions of James Mills, sexton of the
Church of St. John the Evangelist at
New Brunswick, N. J., whose wife was
slain with the rector of the church, the
Rev. Dr. Edward W. Hall, on Sept. 14, that he had no sus-
picions concerning the relations be-
tween the two and trusted Hall to the
utmost, were contradicted yesterday
by one of Mills' next door neighbors.

Miss Millie Ople, who has known
the Mills family a long time and
was very friendly with Mrs. Mills,
said the sexton and his wife quar-
reled frequently about the rector's
attentions to her, and that on one
occasion, in answer to his com-
plaints, she flaunted her admiration
for the pastor in her husband's face
and told him she "cared more for
Mr. Hall's little finger than for your
whole body."

Prosecutor Beekman of Somerset
County yesterday put Mills through
a long grilling in addition to the sev-
eral examinations the sexton has un-
dergone at the hands of the Middle-
sex authorities. Mills' plea that he
has been questioned overmuch does
not seem to carry weight with the
authorities.

Rifle Taken to Court House.

Mills said that the rifle the de-
tectives took to the courthouse some
days ago and concerning which
there has been considerable mystery,
belonged to him. He said it was a
12-caliber gun and that it had been
wrapped up in his home and had not
been fired since the Fourth of July.
The bullets that killed Hall and Mrs.
Mills were of .24 caliber.

"I am innocent; they can't hang
anything on me," Mills asserted. "I
have told my story over and over
again, and I have not changed it
any."

The detectives questioned him over
groups. One group turned me over
to another and each made me go
over my story."

Miss Ople's statement was the first
notable indication of a break in the
reserve of the persons believed to
know of the relations of the pastor
and the sexton's wife. Another in-
dication that those connected with
the tragedy are coming to believe
that silence has injured rather than
helped was the statement of Mrs.
Hall that she knew nothing of the
rumored elopement plan of her hus-
band and Mrs. Mills.

Neighbor's Story.

In her statement Miss Ople re-
vealed to reporters the entire story
she told to the detectives.

"On the afternoon of Thursday,
Sept. 14 (the night the crime was
committed), Mr. Hall called on the
telephone and asked me if I would
ask Mrs. Mills to come to the wire,"
she said. "I called across the way
for Mrs. Mills, but there was no re-
sponse and I told Mr. Hall that Mrs.
Mills did not appear to be home."

It was not unusual for Mr. Hall to tele-
phone for Mrs. Mills. Sometimes
he would say to Mr. Hall that he
called; at other times I recognized his
voice. I personally thought Mr.
Hall sometimes called too often. I
have seen him visit the Mills home
two and three times in one day.

"At 7:30 that Thursday night I
met Mrs. Mills on Carman street,
after she left her home. I had pre-
viously understood that she was to
have been accompanied by Mr. Hall,
where she had put some newspaper
clippings on the rector's desk. This
was in accordance with a custom of
numerous members of the congrega-
tion in submitting information on
topics which they believed might be
of assistance to Mr. Hall in the
preparation of his sermon."

"I told Mrs. Mills when I met her
that evenings of the telephone call
from Mr. Hall, and of my calling
for her. She said, 'I must have
been asleep. Was the call urgent?'
I don't recall just what I answered."

Wearing New Dress.

"Mrs. Mills was wearing a new
dress she had just made. I am a
dressmaker and had helped her to
make it. It was of a light blue
trimmed with ribbon. Mrs. Mills ex-
plained to me that the ribbon was
from a bolt originally bought by Mr.
Hall for Christmas packages. Mrs.
Mills asked me how I liked the dress
and I told her I thought it was very
nice. 'I think it is a bit too giddy,'
she said to me."

The reference to a new dress is at
variance with the story of James
Mills, who told the authorities his
wife had not dressed up before leav-
ing home on the night she was
killed.

"Mr. and Mrs. Mills had frequent
quarrels," continued Miss Ople. "I
know this, because our houses are so
close together, with windows facing
each other. I often heard, angry

KING'S AUTHORITY ACCEPTED BY DUBLIN PARLIAMENT IN VOTE

Proposal to Exclude His Name From
the Irish Constitution Defeated
After Discussion.

DUBLIN, Sept. 27.—The question
of the King's authority as indicated
in the Dublin Parliament yesterday
and accepted by a majority vote.

Deputy Gavan Duffy moved that
the King's name be excluded from
the Constitution. Home Minister
O'Higgins admitted the Government
was not in a pleasant position in the
supporting of the present draft, but
proposed to accept it "because we
have a mandate from the people to
accept the treaty."

"If Mr. Duffy's amendment car-
ries he will doubtless have a minis-
try pledged to draft a Constitution
excluding the King's name. We wish
him luck, and I promise my personal
help in the task, but I am not san-
guine of his success."

Independents supported the Duffy
proposal, but it was beaten.

King Constantine, Who Has Abdicated the Greek Throne, and Queen, Crown Prince and His Bride-to-Be

GREEKS SEVERELY CRITICIZED BY ENGLISH VISCOUNT FOR ACTS WHEN IN RETREAT

LONDON, Sept. 27.—(Re-
Associated Press.)

Strong criticism of the be-
haviour of Greek troops in the
Near East was made by
Viscount St. David, who presided
yesterday at the semi-annual
meeting of the Board of Direc-
tors of the Ottoman Railway,
which operates from Smyrna to
Aidin, in Asia Minor. The Vis-
count said:

"The Greeks in their retreat
burned every village they saw.
They robbed individual Turks,
and when these resisted they
killed them. They did all this
near the front and without mili-
tary necessity. They did it out
of sheer malice. Our reports
are that it was done system-
atically by regular troops un-
der orders. It was done by the
malice of men who knew
they could not hold the country
and meant to make it worthless
for anyone else."

The Greeks took from Smyrna
a number of leading Turks and
deported them to Athens. Vis-
count St. David declared:

"The Greeks deserved all they
got and more," he said. "King
Constantine's servants are very
bad fighters, but they are first-
class at robbery, arson and murder."

The speaker said that the
Greeks were now quiet, but that
the Armenians had resorted to
bomb throwings and in many
ways prompted the chances of
massacre.

This action was taken by Gen. Har-
ington after several requests had
been made by the British com-
manders in the area mentioned that
the Turkish forces withdrew and after
the Turkish forces had begun to in-
trench the British troops are
likewise throwing up intrenchments, erecting
barbed wire entanglements and mak-
ing every preparation both for de-
fence and offensive movement if that
becomes necessary.

It was announced Monday that the
wives and families of the allied au-
thorities would remain in Constan-
tinople, but yesterday some of them
began leaving the city and others
prepared to depart.

Precautions to prevent disorders
in the capital have been redoubled,
but some relief is felt over the ar-
rival at Chanak of British rein-
forcements and the announcement that
additional naval units are on the
way to Constantinople from Malta.

A statement by Major-General
Maurice, British military expert, who
is usually a severe critic, that the
British forces could hold Chanak, the
key position of the Dardanelles,
against any Nationalist attempt,
was accepted here as voicing the opinion
of the officers in general.

"We are prepared," he said, "to
prevent the Turk from crossing the
straits and invading Thrace and can
successfully keep him out of Con-
stantinople."

The British are no less busy
strengthening their lines and check-
mating every move made by the Na-
tionalists. Further arrivals of mili-
tary and naval units are daily aug-
menting their forces and inversely
impairing Mustafa Kemal's chances
of successfully attacking the Straits.

The British fleet now includes six
dreadnoughts, seven battle cruisers,
and a number of other vessels.

CONTRACTS AWARDED FOR SOUTH SIDE HIGH SCHOOL

E. C. Gerhard Building Co. to Erect
Structure for \$1,148,000—Work to
Begin in Few Weeks.

Contracts have been awarded by
the Board of Education for the erec-
tion of the proposed new high school
on the site bounded by Hart-
ford and Juniata streets and Com-
pton and Louisiana avenues, formerly
the old Pickers Cemetery, the E. C.
Gerhard Building Co. being the suc-
cessful contractor, with a bid of \$1-
148,000. The total cost of the struc-
ture when complete will be \$1,442-
062. The next lowest bid was \$25-
806 above that of the Gerhard com-
pany.

The Sodermann Heat & Power Co.
got the contract for heat and power
on a bid for \$117,847; the John
O'Brien Boiler Works, Chicago, the
contract for boiler work on a bid for
\$28,355, and the Ridgway Dynamo
and Engine Co., got the contract
for engines and generators on a bid
of \$16,888.

The plumbing, sewerage and gas-
fitting will cost \$58,535; vacuum
cleaning system, \$10,237; electric
wiring, \$57,000, to the W. C. Bury-
on Electric Co., and a switchboard,
\$4200.

Work will be started within a few
weeks. The new school will accom-
modate 3500 students, which is a
third more than the capacity of the
schools now in operation. "Theodore
Roosevelt" has been suggested
as a name for the new school.

FRELINGHUYSEN RENOMINATED BY NEW JERSEY REPUBLICANS

Senator Wins by More Than Two to
One Over George L. Record,
Lawyer.

By the Associated Press.

NEWARK, N. J., Sept. 27.—United
States Senator Joseph Frelinghuysen,
friend of President Harding and one
of the Administration leaders in Con-
gress, was renominated by the Re-
publicans of New Jersey yesterday
in a sweeping victory of more than
two to one over George L. Record,
a Jersey City lawyer. Returns this
forenoon from 2054 of the 2464 dis-
tricts in the State gave him 148,933
votes against 69,927 for Record a
lead of 77,011.

The Senator waged his campaign
on two main issues, prohibition and
the tariff. He did not discuss the
soldier bonus, against which he
voted.

In the November elections, Fre-
linghuysen will fight it out at the
polls with Gov. Edward I. Edwards,
the Democratic nominee for the Sen-
ate. Gov. Edwards is the champion
of the "wets."

TURKS DIDN'T FIRE SMYRNA, FRENCH SAY

By the Associated Press.

PARIS, Sept. 27.—The French
Foreign Office, in an official state-
ment, confirms news from Constan-
tinople that Gen. Pelle, the French
High Commissioner in that city, and
Admiral Dumas, the commander of
the French forces in the Near
East waters, have satisfied them-
selves that there is nothing to jus-
tify the holding of the Turks re-
sponsible for the burning of Smyrna.

Admiral Dumas also in-
voked the charges that the Turks
poured kerosene on houses and
streets and found them false. Both
Gen. Pelle and the Admiral found
that a number of Turk officers and
men had been wounded by bombs
and hand grenades thrown from
houses.

By the Associated Press.

JERSEY CITY, N. J., Sept. 27.—
The Clerical Union, an organization
of nearly 200 clergymen of the Epis-
copal church in New York, New Jer-
sey and Connecticut, at a meeting
last night, voted unanimously in
favor of active measures by the United
States in the Near East situation.

Hughes' Statement May Counteract
Intrigues, Says London Times.

By the Associated Press.

LONDON, Sept. 27.—Secretary of
State Hughes' formal assertion of
the American policy toward the
Turkish problem was received here
so late as to preclude comment in
this morning's newspapers, although
the Times in its late edition in-
serted the following sentence in its
editorial on the Near East:

"Knowledge that the allied policy
has the approval of the United States
may presently help to counteract the
intrigues of the European advisers of
the Kemalists, whether in Moscow or
Berlin."

The Hughes statement itself is
published by all the papers, but in
many instances without special
prominence.

Pending definite news of the Kem-
alist reply to the allied note, many
of the papers view the situation
calmly, expecting Mustafa Kemal
to comply with the representations
which both the British and French
commanders have sent him and re-
call his troops from the neutral
zone.

The Times, however, admits that
the situation is "critical enough to
mitigate optimism."

In some quarters, Mustafa Kemal
is credited with favoring mod-
eration, and anxiety is not expressed
as to his personal attitude but as to
that of the extremists in the Na-
tionalist Cabinet.

RACE FIGHTS IN PARIS FOLLOW SIKI'S VICTORY

White Women Accompanying
Negroes About—Boxer Smil-
ingly Accepts Plaudits.

By FERDINAND TUCKER,
Staff Correspondent of the Post-
Dispatch and New York World.

PARIS, Sept. 27.—Battling with
unexpected victory over Georges
Carpentier he resulted in triumph
fights between whites and negroes
Paris, especially in the Montmartre
section, where the Parisian negro
colony has been celebrating the
crowning of the new champion.

In most instances the negroes have
been accompanied by pretty, white
girls, not all of them of the
usual Montmartre habitus. Other
whites have precipitated quarrels
and in many cases "freedom"
clashes have resulted.

The Paris negro colony—and it is
big and varied—is carrying its
out and its head high, while some
French women's color blindness as
far as they are concerned, is in-
creasing, even to the embarrassment
of many negroes themselves.

Siki himself has made the rounds
of the cabarets on the hill, accom-
panied by a bodyguard of his com-
rades. But his white wife was not
at home.

Siki Cheered Everywhere.

The new idol is cheered wherever
he goes. He makes speeches, re-
ceives the flowers and garlands thrown
at him and smiles all the time. Al-
most every other negro near the arena
is mistaken for Siki and is sur-
rounded by an admiring crowd, until
the poor fellow—he is usually a hand-
some player—is forced to take a
fight in a taxi in self-defense.

Siki himself is singularly ugly and
very black. All day he was driving
around the boulevards in a black
taxi, piloted by an even blacker
chauffeur. He visited all the sport-
ing newspaper offices, took a little
champagne and blocked traffic by
appearing on balconies, waving his
garlands and waving to the crowd
below. But on the whole he takes
little liquor, sticking to the mas-
tard, to victory and victory.

The new champion is being
welcomed with commercial offers. He
wants to use his name to advertise
new pills; another wants to star him
in a film version of Rene Ma-
tania's "Harem," the novel of Africa
that won the Prix Goncourt; a well-
known dancer offers him 1000 francs
a night to dance with her at a fa-
miliar cafe.

To all these offers his manager,
Holler, returns a decided negativ-
e. While Siki, happy in his new-found
wealth, tries to tip everybody he
sees.

Carpentier's Manager Scams.
And Francisca Desamps, Carpen-
tier's manager, screams continually
for a return fight, which he certainly
will not get for at least a year. Siki
must have time to make it all his
own. He can from his new home.

Desamps, crying like a child, al-
most came to blows with Heller at
a private showing of the fight film
run off slowly. Others in the au-
ditorium indulged in a near-riot in
difference of opinion as to whether
Siki fouled Georges.

"I am content that Siki
shall be tried by the intellec-
tuals of this imperial State
truth or the falsity of it
statement of the fact of the
matter. It is a broad and fore-
sight of Democratic principle
of the St. Louis Post-Dispatch
is correct when it says 'Siki'."

"At this crucial hour in
history it behooves us
to rise above mere matters of
plique or a petty partisan-
ship. For six long years
shall, through her chosen
door in the Senate, stand
maintenance of great prin-
ciple which may have the
curtesy of the republic. If it
ciples are sound and if
the approval of discerning
trifles men, then you should
the Senate a capable rep-
resentative of the people and
State Platform Discern."

"If a little coterie of the
politicians has given to the
Missouri a declaration of
war, and if it is a matter of
the time-honored prin-
ciple of the last adminis-
tration, then you should
the Senate a capable rep-
resentative of the people and
State Platform Discern."

Robinson pleaded with
the Senate to forget the differ-
ence between the primary and
the secondary.

"He is indeed a po-
litical animal," who re-
fused to participate in the
never enjoyed permanent
recognition in any
country's history. It is
evident that every man
who entered the Missouri

TWO COLLEAGUES EULOGIZE REED CAMPAIGN OPEN

Senators Stanley of Ken-
tucky and Robinson of Ar-
izona at
Meeting in Mexico,

CITIZENS INTEREST IN LIQUOR

Chief Discussion as to Ability of Reed Stand on Volstead His Address Tonight

By CURTIS A. BETH,
Staff Correspondent of the
Post-Dispatch.

MEXICO, Mo., Sept. 27.—
Senator Reed was deliv-
ing this afternoon by Senator
of Arkansas and Senator
of Kentucky at the opening of a
civic State campaign in
the central state grounds
business section of Mexico,
both both appealed for the
of Democratic officials from
bottom of the ticket, though
importance of Reed's election
by the speakers to be par-
ticularly addressed the
state and national affairs,
the administrations of
Harding and Gov. Hyde,
and Stanley contented him-
self with a general address
and it is a still more
what lengthy discussion
of the preservation of
liberties of the people.

"It is a coveted privilege,
Stanley said, and a pleasure
to address this great assembly
half of my friend and col-
league of Missouri's capable
representative in the Fed-
eration. It affords me still great
pleasure and it is a still more
privilege to stand flat-foot
him upon a platform of
eternal principles."

"I note in flaming head-
lines editorial page of a great
journal of the St. Louis Post-
Dispatch that the Demo-
cratic platform is built to fit
him that is the case nobody
complains about the broad
statement of the fact of the
matter. It is a broad and fore-
sight of Democratic prin-
ciple of the St. Louis Post-Dispatch
is correct when it says 'Siki'."

"At this crucial hour in
history it behooves us

TWO COLLEAGUES EULOGIZE REED AT CAMPAIGN OPENING

**Senators Stanley of Kentucky
and Robinson of Arkansas
Speakers at Afternoon
Meeting in Mexico, Mo.**

CITIZENS INTERESTED IN LIQUOR ISSUE

**Chief Discussion as to Prob-
ability of Reed Stating
Stand on Volstead Law in
His Address Tonight.**

**By CURTIS A. BETTIS,
Staff Correspondent of the Post-
Dispatch.**

MEXICO, Mo., Sept. 27.—Eulogies of Senator Reed were delivered here this afternoon by Senator Robinson of Arkansas and Senator Stanley of Kentucky at the opening of the Democratic State campaign in a tent on the central school grounds near the business section of Mexico. In addition, both appealed for the election of Democratic officials from 1923 to 1928.

Reed's election was the subject of the speakers to be paramount. Senator Robinson went deeply into the history of the liquor issue, denouncing the administration of President Wilson and Governor Hyde while Senator Stanley contented himself with a brief eulogy and, with a somewhat lengthy discussion of the subject of the preservation of the civil liberties of the people.

"It is a coveted privilege," Senator Stanley said, "and a pleasant task to address this great assembly in behalf of my friend and colleague, and of the administration of President Wilson and Governor Hyde, while Senator Stanley contented himself with a brief eulogy and, with a somewhat lengthy discussion of the subject of the preservation of the civil liberties of the people."

"It is a coveted privilege," Senator Stanley said, "and a pleasant task to address this great assembly in behalf of my friend and colleague, and of the administration of President Wilson and Governor Hyde, while Senator Stanley contented himself with a brief eulogy and, with a somewhat lengthy discussion of the subject of the preservation of the civil liberties of the people."

Scene of Explosion That Wrecked Tire Concern's Building

Damage wrought by explosion last night at the Independent Tire Co., at 3152 Locust boulevard, at the corner of Compton avenue, which left the tire concern's building a pile of debris, dislodged telephone poles and broke windows in many other buildings.

The primary for United States Senator to support Senator Reed in the November election. Robinson said Reed is "one of the greatest and bravest" of the people. "The equal of the greatest man known to Missouri politics," Robinson said, "on a level with Thomas H. Benton and William Lloyd Garrison, 'one of the greatest and bravest' of the people. 'Those who think Senator Reed has sometimes made mistakes must concede,' Robinson said, 'he has been above the control of propaganda, and has stood four square against the influences which have exerted to dominate the national lawmakers and the administration of Government affairs. He ranks high or now than ever before because of his steadfast opposition to influences which he believes detrimental to the public interest.'"

Secretary Weeks Quoted. Robinson quoted Secretary of War Weeks to the effect that "the Congress which has just adjourned 'has descended to the lowest level of public service known to our political history.'"

He denounced the Fordney-McCumber tariff and said it would increase the cost of living. He said the ship subsidy bill was not passed because the President believed Republicanism was a matter of fact in reality it will not open until tonight, when Reed speaks.

The arrangements for the meeting indicate that it is Reed's campaign which is being opened and that no attention has been given to other candidates on the State ticket though it is probable they will be permitted to speak briefly if they express the desire or demand for privilege. The program includes no place for any of the three candidates for Supreme Judge nor for the candidate for State Superintendent of Schools.

Senator Stanley and Senator Robinson asked for the election of the entire Democratic State and congressional ticket, but primarily they are here to assist Reed.

Details of Arrangements. Clarence Cannon, Democratic nominee for Congress in the Ninth District, presided at the afternoon meeting and O. W. Hackworth, chairman of the Democratic State Executive Committee, will preside at the night meeting.

Stanley and Robinson were the only speakers scheduled for the afternoon, while Mrs. St. Clair Moss, the only woman nominee for Congress in Missouri, is slated to speak at the evening meeting, at which Reed will deliver the principal speech. It was stated by Democrats who have a part in the arrangements that the tent will seat 3000 persons. The local arrangements have been in charge of A. H. Whitney, a member of the State Committee from the Ninth District, and Dr. J. F. Harrison, chairman of the County Committee of Audrain County.

Democratic Senators Visit City on Way to Speak at Mexico for Reed. Two Democratic United States Senators who are in Missouri to aid the campaign of Senator James A. Reed, departed from St. Louis this morning for Mexico, where Senator Reed is to open his campaign this evening. They are Senators Joseph T. Robinson of Arkansas and A. O. Stanley of Kentucky. They departed for Mexico in company with Senator Reed and several members of the Democratic State Committee, which also meets at Mexico today.

Challenge of R. R. Brewster. Republican nominee for the Senate, to Reed to enter into an agreement with him whereby both would issue simultaneous statements containing their views on the subject, has been the subject of much discussion since its publication in the Post-Dispatch a week ago as has Brewster's subsequent statement that both "wet St. Louis and dry Audrain" would anxiously await the Senator's opening speech to learn his position.

According to Democratic leaders who have talked with Reed since his return to Missouri from Washington last Sunday, the Senator has expressed a desire to include in his speech a very definite statement on the Volstead law, but has been urged by men active in the organization to avoid that subject just as long as possible.

These leaders even go so far as to say what Reed's position will be when he gets ready to state it, but it probably would be unfair to the Senator to give publicity to second-hand accounts of what he may have said in private conference, at least it would seem that he should be accorded the privilege on making his own statement on the subject in his own language.

Whether he will follow his own desires and get the issue out square at the beginning of the campaign, or whether he will follow his practice in the primary campaign of calling upon his opponent to state his position, and the same time refrain from stating his own, could not be ascertained this morning.

Undoubtedly the Senator will devote some time to a denunciation of extra-constitutional methods of enforcing the law and to denunciation of Washington bureaus and boards which the wets contrive to be an attack on the methods of enforcing the Volstead law. While officially the campaign was opened this afternoon with speeches by Senator Robinson of Arkansas and Senator Stanley of Kentucky, a Republican in fact in reality it will not open until tonight, when Reed speaks.

The arrangements for the meeting indicate that it is Reed's campaign which is being opened and that no attention has been given to other candidates on the State ticket though it is probable they will be permitted to speak briefly if they express the desire or demand for privilege. The program includes no place for any of the three candidates for Supreme Judge nor for the candidate for State Superintendent of Schools.

Senator Stanley and Senator Robinson asked for the election of the entire Democratic State and congressional ticket, but primarily they are here to assist Reed.

ONLY 151 OF 2710 PAROLES IN 14 YEARS HAVE BEEN REVOKED

**Constitution Convention Debates
Parole Plan, but Makes
No Change.**

By the Associated Press.
JEFFERSON CITY, Sept. 27.—Only 151 of the 2710 convicts paroled from the Missouri Penitentiary in the last 14 years have gone on to the extent that their paroles have been revoked. It was disclosed in debate in the Constitution Convention today on the parole system. This is slightly more than 5 per cent.

The Committee on Executive and Ministerial Departments recommended that the Governor be allowed to grant paroles without restriction, but that pardons, paroles and commutations be granted by him only with the consent of a majority of the members of the Prison Board and in case of twice-convicted felons only upon a unanimous recommendation of that board or similar agency created by the Legislature for such purpose.

V. Lashby of Webster Groves presented statistics compiled by J. Kelly Pool, Parole Commissioner of the Prison Board, showing that paroles have been granted in the last 14 years as follows: By Gov. Hadley, 675; by Gov. Major, 1099; by Gov. Gardner, 833; by Gov. Hyde (in 19 months of his administration), 203. The convention adopted the terms of the present Constitution.

**CORONER'S JURY REPORTS ON
ARGONAUT GOLD MINE DISASTER**

**Makes Recommendations to Prevent
Recurrence of Catastrophe in
Which 47 Lost Lives.**

By the Associated Press.
JACKSON, Cal., Sept. 27.—The coroner's jury investigating the Argonaut mine disaster of Aug. 27, in which 47 men lost their lives, last night recommended that connecting passageways be built between the Argonaut and Kennedy mines. It also recommended that better fire-fighting facilities be provided, and that greater precautions be taken in the future to prevent a recurrence of such a disaster.

The verdict was that the 47 miners came to their deaths early on Aug. 28 as a result of suffocation by poisonous gas fumes caused by fire of undetermined origin.

H. M. Wolfen, superintendent of safety for the State Industrial Accident Commission, testified that leading mine engineers were called into conference soon after the fire began, and all agreed that to reverse the air current at the Muldoon shaft, near the Argonaut, would prove fatal to the entombed men.

S. B. Hoxie, superintendent of another mine, disagreed with Wolfen, saying he believed there would have been some chance for the entombed men if the fan had been reversed.

exploded with any great force. Mrs. Israel Kiefer is president of the company, which is capitalized at \$15,000.

The company occupied the first floor as a salesroom and in the rear, as a warehouse. Its offices were on the second floor, and the third floor was not in regular use. The company had seven employees.

Street Department laborers worked this morning at removing the trees and building wreckage from the street, principally on Compton avenue.

The Independent Tire Co. carried about \$16,000 insurance on its stock, according to an insurance agency which handled the business. The amount of insurance on the building was not ascertained.

SURGEON GIVES BLOOD TO PATIENT

By the Associated Press.
NEW YORK, Sept. 27.—Dr. Felix Scardapane, Brooklyn surgeon, gave up a quart of his own blood Monday to save the life of a patient, it was learned yesterday in a hospital announcement that the patient, Mrs. Rosa Pasquerella, would recover.

After a diagnosis Saturday, Dr. Scardapane said a transfusion of blood was necessary to save Mrs. Pasquerella's life. Her husband, recently employed after months of illness, was unable to leave his work and there was no other source available. So Dr. Scardapane called in two other surgeons and underwent the operation himself.

ANSWER TO SUIT OF HOUSING TRUST FILED BY HUGHES

**Finance Commissioner At-
tacks Constitutionality of
Statute Under Which Or-
ganizations Are Operating**

**By a Staff Correspondent of the
Post-Dispatch.**

JEFFERSON CITY, Sept. 27.—Constitutionality of the statutes under which housing trusts are operating in Missouri is attacked in the return of J. G. Hughes, State Commissioner of Finance, filed in the State Supreme Court today to a suit by the Home Planners' Depository of Kansas City for writ of mandamus to compel Hughes to issue a permit to do business in this State.

Hughes adds that the plan and scheme for doing business of the Home Planners' Depository are similar to those of the Modern Home and Housing Organization, also of Kansas City, which has been held by Barrett to be in conflict with the Constitution and statutes of the State.

Lottery Alleged. The Home Planners' method of establishing the priority of its certificate holders would constitute a lottery, in violation of the Constitution of the State, Hughes declares, in that it seeks to conduct a domestic lottery. The actual amount of money which the contract holder may receive as a loan is subject to the same award, he charges, as that also is a further question of chance. Issuance of a permit to the Modern Home and Housing Organization also was refused partly on the ground that its method of granting loans would be closely akin to a lottery.

Unconstitutionality of the housing trust statute enacted by the Legislature in 1919 is asserted by Hughes on the following grounds:

That it grants to such "unincorporated corporations or individuals" permission to do business on much the same basis as other groups without subjecting them to the same requirements with which the latter must comply.

Bill of Rights Quoted. That it violates that provision of the bill of rights which guarantees that "all persons have a natural right to life, liberty and the enjoyment of the gains of their own industry" and that other sections of the bill of rights, "that no person shall be deprived of life, liberty or property without due process of law," as well as the fourteenth amendment to the Constitution of the United States.

Hughes reasons further, that having powers not possessed by individual or partnerships under Missouri law, the Home Planners' Depository comes under the provisions of the State Constitution relating to corporations, to which its plan is contrary in that no power is extended to stockholders or certificate holders to participate in selection of those who would conduct the business. Certificates to be issued to members "would be fraud" against their holders, it is charged, in that the certificates recite that a contingent fund of not to exceed \$100,000 shall be created from money going into the expense fund to maintain integrity of the loan fund and trust fund, whereas the contract between the depository and its fiscal agency provides that all money, except that in the loan fund, shall be paid to the agency monthly. This agency contract also conflicts with another provision that all unused portions of the expense fund shall revert to the loan fund, it is pointed out.

The depository's declaration of trust, according to the return, provides that the first five monthly payments of \$25 each to the expense fund and that for seven months thereafter \$1 of each payment shall be similarly allocated, or a total of \$47 of the first \$96 paid in the remaining \$49 going into the loan fund.

Plan Alleged to Be Unsound. Even if the housing trust statute should be held constitutional this particular trust is outside its provisions, the return sets forth, in that it seeks to conduct a domestic investment company, an insurance brokerage and other insurance business without proper legal authority.

In plan of operation is mathematically unsound, the return declares in that the funds received on its contracts would not enable the depository to make the loan promised under its contract, the additional assertion being made that the contract is insolvent because there is no capital stock and the expense and reservations in a short time would render it unable to continue in business.

The trust sought to be created is "unconscionable, inequitable and violative of the public policy of this State and is therefore void," for the reason that it is an attempt, Hughes charges, on the part of its signatories to give themselves sole and unrestricted control and management of funds contributed by certificate holders, with exemption from personal liability for losses through their administration of the trust.

It is expected that this case, regarded as a test of legality of the plan of housing trusts in this State, will be argued at the October term of the court.

the bill of rights which guarantees that "all persons have a natural right to life, liberty and the enjoyment of the gains of their own industry" and that other sections of the bill of rights, "that no person shall be deprived of life, liberty or property without due process of law," as well as the fourteenth amendment to the Constitution of the United States.

Hughes reasons further, that having powers not possessed by individual or partnerships under Missouri law, the Home Planners' Depository comes under the provisions of the State Constitution relating to corporations, to which its plan is contrary in that no power is extended to stockholders or certificate holders to participate in selection of those who would conduct the business. The trust sought to be created is "unconscionable, inequitable and violative of the public policy of this State and is therefore void," for the reason that it is an attempt, Hughes charges, on the part of its signatories to give themselves sole and unrestricted control and management of funds contributed by certificate holders, with exemption from personal liability for losses through their administration of the trust.

It is expected that this case, regarded as a test of legality of the plan of housing trusts in this State, will be argued at the October term of the court.

**War Department Sells 7504
RAILROAD CARS TO POLAND**

**European Type Equipment, Made for
A. E. F. During War.**

By the Associated Press.
WASHINGTON, Sept. 27.—The War Department announced today the sale of 7504 European type railway cars to the republic of Poland for the sum of \$4,802,560, of which \$1,300,640 will be paid in cash and the remainder in six-year 5 per cent notes of the Polish republic. The Polish Government, the statement said, is arranging to complete the shipment of the cars to Poland in about 10 months.

The cars are stored in yards at Norfolk and New York and because of differences in type and gauge are not available for use on American railways, having been built here during the war for the use of the American army in France. They were sold under sealed bids, 11 offers being received, of which the Polish offer was the highest.

The bulk of the cars are of the gondola type, although there are some flat cars and a few special type continental box cars.

**COUNTY DEMOCRATIC BODY
DEADLOCKED OVER NOMINEE**

**Fusion and Antifusion Groups Di-
vided on Choice of Candidate
for Judgeship.**

The St. Louis County Democratic Committee remains deadlocked on the issue of naming a candidate for the County Court from the First District, after a meeting last night.

Five of the 10 committeemen, who favor naming a candidate acceptable to the Clean Election League, which has a fusion ticket in the field in the county, would not vote for Raymond A. Walsh, and the five antifusionists of the committee would not vote for Dan Sheerin of Maplewood, who was proposed by the fusionists.

The committee voted unanimously to name Joseph C. A. Hiller for the House of Representatives from the Third District. He was president of the "Reed-for-Senator" Club before the August primary. The antifusion wing had previously named Hiller and Walsh for the two vacancies, but the courts held that this action was illegal.

Dry Agents Charged With Extortion.
By the Associated Press.
SAN FRANCISCO, Sept. 27.—Harry Myers and Waldo W. Curtis, Federal prohibition agents, were charged last night with extortion in connection with an alleged liquor bribery plot in complaints filed before United States Commissioner Thomas F. Hayden by J. C. O'Flaherty, chief of the special intelligence unit of the United States Revenue service. The agents are charged with accepting a bribe of \$10,000 from Bonoma County vineyardists for permission to remove a large quantity of wine from Santa Rosa to San Francisco. Bail was fixed at \$5000 each.

An Education Assured

Putting surplus money into good bonds is an ideal way to accumulate funds to pay for the education of children. Little fellows in kindergarten or the lower grades of school will be ready for college in a dozen or so years, and money put in safe bonds now will take care of the expenses then.

Setting aside as little as \$10 per month at only 5% interest will amount, in round figures, to \$1500 in ten years, and that sum will help considerably when the youngster starts to college.

Bonds—safe ones—maturing in five, ten or fifteen years, or at intervals between, can be bought from any of the trustworthy financial institutions which advertise in the Post-Dispatch, and any of these advertisers will take pleasure in discussing with prospective investors the method of accumulating a surplus for the higher education of children.

It is well to bear in mind, in buying bonds, that the safety of the investment depends in a large measure upon the honesty and integrity of the financial institution selling the securities.

DIVORCES ONE HUSBAND, REMARRIES ANOTHER

Webb City Woman's First Husband, Reported Dead, Reappears After Several Years.

(Special to the Post-Dispatch)

WEBB CITY, Mo., Sept. 27.—Mrs. Elmer Sinard was divorced at 1 p. m. yesterday from her first husband, Albert Hooker, and within the hour had been married a second time to Attorney Elmer Sinard, father of her child and to whom she had been married two years ago, when she thought her first husband was dead.

Ten years ago, at the age of 15, Elmer Sinard married Albert Hooker.

They separated in time, and the girl wife said she was told by Hooker's mother that he had died.

Believing this, she met and married Sinard a few years later. To them a girl baby was born 3 years ago.

Seen "Dead" Husband.

Three months ago Mrs. Sinard saw Hooker, her first husband, on the streets here and in her amazement confessed to her second husband.

They promptly began living apart and she instituted divorce proceedings against Hooker, who later denied that he had really married the girl legally, alleging that he perpetrated a fake ceremony on her in Kansas City.

Sinard investigated and could find no official record of a marriage anywhere in Missouri. Despite this fact, in order to clear the case up beyond question, the divorce suit was pushed and the decree was granted this afternoon by Judge J. D. Perkins in Circuit Court at Joplin.

Hooker did not appear at the trial.

Married Under Maiden Name.

Sinard was not his wife's lawyer in the case, but was present, and they quickly applied for a marriage license. In this application the woman, mother of Sinard's baby and two years his wife, theoretically Mrs. Albert Hooker up to an hour before, gave her maiden name of Elmer Davis.

ARMY PLANE MAY HAVE SET A SPEED RECORD

Better Than 200 Miles an Hour
Credited to Machine En-
tered in Pulitzer Race.

By Leased Wire From the New York
Bureau of the Post-Dispatch.
NEW YORK, Sept. 27.—A report
from unofficial sources asserts that
Lieut. Lester J. Maitland, of the
Army Air Service has flown consid-
erably better than 200 miles an hour
at Mitchell Field, Garden City, L. I.,
in the Curtiss C-12 pursuit plane
he will pilot in the Pulitzer Trophy
race at Detroit, Oct. 14.

None of the officers at the field
would discuss the flight, which was
over a straightaway course. Lieut.
Maitland had established a world's
record, however, that they have re-
ceived orders from Washington not
to talk.

Feeling between the army and the
navy over the coming race is said to
be even more intense than that en-
gendered by the West Point-Annapo-
lis football game. The result is that
both service branches are committed
to silence regarding test work of
their respective pilots.

Frenchman's Record.
If Lieut. Maitland clipped a world
mark he did better than 212 miles
an hour. This record was made last
week by Sadi Lecoq, a Frenchman
and former title holder, who beat
the record of 210 miles an hour
made Aug. 27 by Lieut. Brakpaha
at Turin, Italy.

When the Curtiss company an-
nounced delivery of the plane Lieut.
Maitland is now flying, it was said
it was capable of 200 miles an hour.
It developed 430 horsepower. There
is no radiator and radiation is ac-
complished in the wings, which are
of corrugated construction with
brass tubing.

The attention of President Har-
ding, Secretary of War Weeks and
Secretary of the Navy Denby was
drawn to the Detroit event yester-
day by Henry Woodhouse, who
states that he represents about 400
members of the Aero Club of Amer-
ica.

He wrote a letter in which he
charged that the Detroit flying
course has not been officially in-
spected or approved, and that "we
consider the course deadly, and that
the killing of army and navy avi-
ators participating must be expected."

Not Sanctioned by Club.
The Detroit Aero Club, which
had not been officially sanc-
tioned by the Aero Club, as "san-
ction can be granted only upon a
bank guarantee, and no guarantee
has been given."

Howard P. Coffin, chairman of the
Detroit Aviation Society's Executive
Committee, in a statement to the As-
sociated Press last night branded
Woodhouse's charges as "sheer non-
sense." He said that Brigadier-Gen-
eral William Mitchell, assistant Gen-
eral of the army air service, had ap-
proved all the courses, as had Lieut-
enant Commander Marc A. Mitscher,
head of the naval delegation now
at Detroit for the races. The courses
also have been approved by Sec-
retary Weeks and Secretary Denby,
he said.

The races will be flown over ter-
ritory surveyed and carefully pre-
pared by the united efforts of the
army and navy air forces, co-operat-
ing with the Detroit Aviation So-
ciety," said Maj. Carl Spatz, com-
manding officer at Selfridge Field.

PRETENDER TO THRONE OF
ABYSSINIA SHOVELS COAL

"Prince Theodore Menekel," who
resides at Springfield, Ill., says
he was spirited away as a child.

By Associated Press.
SPRINGFIELD, Ill., Sept. 25.—A
pretender to the throne of Abyssinia
by virtue of lineal descent from
Menekel II, shovels coal for the State
of Illinois according to a "Prince
Theodore Menekel," who is known now
as T. P. Newman. The story came
out when Newman happened to visit
the tomb of Lincoln and signed the
visitors' register as a "Prince Theo-
dore Menekel." Herbert W. Fay,
custodian of the tomb, drew from a
large chest a picture of the African
ruler who once thrashed an Italian
army.

"That's him. That's the old
man himself," ejaculated the local
Prince incognito, registering imme-
diate recognition.

Newman, according to his story,
was born in England, where his fa-
ther was taken by a British General
who had captured him in battle.
Newman represented his father as an
Abyssinian warrior of the royal
blood who was made a virtual slave
by the British commander. His moth-
er, he said, was an Abyssinian Prin-
cess, who was captured at the same
time.

When he was an infant his mother
took him back to Abyssinia, he said,
where enemies spirited him out of
the country, and sent him to New
York with a considerable sum of
money placed at his disposal. He
was 14 when he reached New York,
a wealthy young Prince, he said. The
wealth soon disappeared in his
ramblings over the country. He be-
came a laborer, married, and as the
years passed, his identity and his
ambition to return were lost. He as-
serted.

He now lives in a cottage in
Springfield and works as a laborer
for the State. He is 55 years old.

What Hindus Save Money For.
By Associated Press.
CHICAGO, Sept. 27.—Hindus save
their pennies for years so they may
buy goats for sacrifices, reports a
native teacher in a school near Luck-
now, maintained by the Board of
Sunday Schools, M.E. Church. Sav-
ings of months are spent for flow-
ers to be scattered on the waters of
the Ganges. Others save for a life-
time that they may journey to the
sacred river and wash away their
sins.

SHORT SERMON IDEA BECOMING POPULAR

Church Innovation Started by St. Louis Episcopal Laymen, Said to Be Spreading.

The short sermon, suggested last spring by the Associated Vestries of the local Episcopal churches as being more effective and less oppressive than the long-drawn-out discourses, has become an institution and many of the clergy do not even preach as long as 22 minutes, the limit of forbearance prescribed by the vestries organization but are more brief.

The laymen's suggestion, which attracted nation-wide attention at the time, was taken up by the Episcopal clergy in many other cities, and while the vestrymen elsewhere do not exactly hold the watch on the preacher, the prescribed limit is seldom exceeded.

The reform, if such it may be termed, was instituted at a meeting of the vestries organization held to discuss plans for large attendance at church in celebration of the fifty-fifth anniversary of Bishop Tuttle's consecration to the Episcopate. It was contained in a resolution, and the clergy accepted the decree with good grace, it being pointed out to them that strangers do not like to be fatigued by long sermons.

After putting the idea into practice, one of the best-known rectors in St. Louis said at a recent meeting that his parishioners told him he said a lot more now in 15 minutes than he used to say in his lengthened addresses, and the clergy from other dioceses who have preached here have been careful to observe the rule, frequently making comment that they had been warned before coming against making an extended discourse here. A number of visiting Bishops also have alluded to the rule and timed their sermons accordingly.

The Associated Vestries is the only Episcopal organization of its kind in the United States. It was formed to bring laymen into more active touch with church work and to promote closer co-operation of members of the vestries with the clergy. R. L. of daniel, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

MEMBER OF ROYAL FAMILY DOESN'T GIVE "HOOT" FOR TITLE

Lord and Lady Mountbatten Expected to Tour States Until December, (Copyright, 1922.)

LONDON, Sept. 27.—Lord and Lady Mountbatten, who are sailing for America Wednesday, expect to be in the United States until about Dec. 1.

"I don't care two hoots what you call me," Lord Mountbatten said to the correspondent today when asked by which of his titles he preferred to be addressed. "Perhaps I have an altogether proper appreciation of such important details; I haven't time to think about them."

"I am an officer in the Royal Navy and my work there keeps me too busy to worry about nonprofessional affairs. As one of the members of the royal family I take precedence over the entire nonroyal nobility. But I don't care a hoot for that."

"At official functions I always struggle in late, and when I am on time I walk in with the commoners to make the old fogies mad."

Lord Mountbatten's title, until changed by royal warrant in 1917, was Prince Louis of Battenberg. His wife was Miss Edwina Ashley, niece and heiress of the late Sir Ernest Cassel.

After a brief stay on Long Island they expect to visit Chicago and then go to Humboldt to inspect the mines in which Lady Mountbatten owns a controlling interest. Next, they will visit the Grand Canyon, and later Lord Mountbatten hopes to go tarpon-fishing in Florida before going to Washington. Their last week will be spent as the guests of Cornelius Vanderbilt, in New York.

ITALIAN GOVERNMENT CONSIDERS CLOSING MONTESSORI SCHOOLS

Authorities Say Cost Is Heavy and That Good Results Are Problematic.

(Copyright, 1922.)

ROME, Sept. 27.—Governmental authorities contemplate closing the Montessori Schools, the "Houses of Childhood" established in Italy by Dr. Maria Montessori and by those who follow her method for developing the intellect of the young.

These schools have been opened in several countries. Dr. Montessori has visited the United States twice to explain and demonstrate her educational system. The Italian authorities say the cost of the schools is heavy, while the good results they have are problematical.

Dr. Montessori first became interested in defective children and later took up the development of the normal child mind. She became convinced that children would learn more rapidly if she assisted their spontaneous development instead of forcing knowledge upon them through accepted methods.

She believes that the ordinary idea of discipline confuses children and makes them mentally inactive, whereas, if a child has liberty it will gain in the end. Her pupils learn through "doing and discovering;" they never get orders to do this or that.

USE IT FOR SANITARY REASONS

SCHWARZ'S KIL-VE
DESTROY VERMIN ON CHILDREN'S HEADS

DON'T take chances with your children's welfare. Make them safe and secure against vermin. KIL-VE is a clean and harmless, non-sticky preparation, that destroys not only vermin, but eggs, lice or larvae and their breeding place. It doesn't interfere with growth or color of the hair, and NO FINE COMBS NEEDED thereafter. Sold at all drug stores—15c, 50c and \$1.25.

Clear your skin—Make your face a business asset

TWO MEN INDICTED IN HERRIN CASE SURRENDER

All of 44 Murder Defendants Now Under Arrest—Date for Trials Not Yet Fixed.

By the Associated Press.
MARION, Ill., Sept. 27.—With the surrender today of Jesse Childers and Oswald Howard, all of the 44 men indicted for murder in connection with the Herrin mine killings have been placed under arrest. Childers and Howard are among the eight refused liberty on bail, the other 36 having been allowed freedom on bonds ranging from \$20,000 to \$5000 each.

This leaves 20 of the total of 74 men named in the 214 indictments who are still at large. They, however, are charged with lesser offenses such as rioting and conspiracy to commit murder and assault to murder. County officials say they have not been apprehended because their whereabouts are unknown.

County officials said further conferences would be held in the near future to set the date of trials for those indicted. Those charged with murder are expected to be brought to trial first. It was said.

"Family Reunion" in Prison.
SHAWNEE, Ok., Sept. 27.—There is going to be a family reunion for John Davis, negro, said when he left today for the State Penitentiary at McAlester to begin a five-year sentence for burglary. "The got two brothers, an uncle and three cousins there besides a lot of other acquaintances."

Intellectuals Expelled From Moscow.
RIGA, Sept. 27.—A large party of expelled Russian intellectuals has arrived here from Moscow with their families. Twenty-five persons are in the party. Another party of 24 is being sent from Moscow to Petrograd, where they will be placed on board a ship and sent away. Those expelled include several noted professors and authors, and the former Provisional Government's Minister of Agriculture, M. Pashekhonoff.

PRESIDENT'S SON GIVES UP

Alfredo Zayas, son of President Zayas, has been indicted for falsifying public papers.

Alfredo Zayas, son of President Zayas, has been indicted for falsifying public papers. Zayas has applied for a writ of habeas corpus and an attempt will be made today to modify the indictment and effect the release of the prisoner on bail.

Innocent Bystander Slayer Freed. By the Associated Press. OKLAHOMA CITY, Ok., Sept. 27.—Mrs. J. C. Tolbert, who shot and killed Matt Green, an innocent bystander, here Monday, when she went gunning for her husband, was exonerated yesterday by a coroner's jury. The coroner's jury held that the slaying of Green was accidental.

The Ladder of Life

THE bottom rungs are badly overcrowded, but there is still plenty of room at the top. What is it that has lifted others—and can lift you—to a higher place upon life's ladder? Abundant energy for every-day use, and ample reserve energy for emergencies. If you have the ambition to succeed, and want to keep your whole body charged with driving energy, feed your body scientifically. In place of heavy, starchy, too highly seasoned dishes, eat food such as Grape-Nuts, which supplies unusual nourishment to all the body tissues

without overtaxing the digestion or clogging the system with poisonous waste matter. Eaten with good milk or cream, Grape-Nuts is a complete food, particularly rich in mineral elements—which are so necessary for normal and vigorous development. The sturdy nutriment of wheat and malted barley is made easily digestible by more than 20 hours' baking which also accounts for that distinctive charm of flavor found only in Grape-Nuts. Where you don't find Grape-Nuts, you won't find people!

"There's a Reason"

A BETTER UNDERSTANDING OF BETTER ST. LOUIS

[FARM PRODUCTS]

THE Mississippi Valley has been referred to as "The bread basket of the world". The distribution of the vast volume of food products raised in the rich river bottom and prairie soil of the "Valley", centers in St. Louis. Meat packers, millers, food specialty manufacturers, seed dealers, agricultural machinery men and allied lines of industry relating to production, preparation for consumption, and economic distribution of farm products have found that doing business in St. Louis allows them to keep close to the needs of their trade, and to supply these needs quickly and satisfactorily. The First National Bank with its excellent organization and large resources, believes in St. Louis and stands back of St. Louis business and industry.

TWO MORE ROADS REFUSE TO DEAL WITH STRIKERS

Presidents of Missouri Pacific and Cotton Belt Announce Plans for Organizing New Shop Employees.

SAME AS PLAN OF FRISCO AND "KATY"

Men Now Out Will Be Considered for Re-employment, but With Loss of Seniority Rights.

Four of the five larger railroads with headquarters in St. Louis, have now refused to deal with the striking shopmen's organizations. The presidents of the Missouri Pacific and Cotton Belt railroads announced last night that these roads were planning associations of their present shop crafts employees to negotiate future wage agreements, and that only strikers who were satisfactory to the roads would be taken back, with loss of seniority, when vacancies occurred. The Frisco and "Katy" recently announced similar intentions, and already have new labor associations under organization on their lines. Wabash officers, while meeting strikers' representatives last week, were so firm in their stand against restoration of seniority that the shopmen's chairman asserted there seemed to be hardly a chance of settlement. Cotton Belt's Attitude. President Daniel Upthegrove of the Cotton Belt declared that the road had declined to discuss a proposal from the strikers for a separate agreement, that the men who walked out had lost all seniority rights and that individual application would be necessary before a striker would be considered for reinstatement. Approval of these applications, however, will result in these former employees receiving preference when vacancies occur. President B. F. Bush of the Missouri Pacific yesterday caused to be posted over the system a circular calling upon shopmen now employed by the road to organize an association for "negotiating an agreement covering wages and working rules." The text follows: "The officers of this railroad have so far refrained from issuing any statement with respect to the strike of July 1, believing that as long as there were any prospects of a satisfactory settlement no good could be thereby accomplished. It now appears that definite information as to our intentions and policy is due our employees, in view of the misleading statements which have been made from time to time by the leaders of the strikers. Conciliation Efforts. "Representatives of other organizations with whom we have agreements have approached the management in a spirit of friendly co-operation for the purpose of making some arrangement to compose the situation and return to service certain of our former employees. "We believe that many of our men were induced to go on a strike against their inclination and better judgment, and, therefore, were willing to take care of as many of them as we could, but it was found impossible to work out any such arrangement which would not result in injury to the rights and standing of the men who remained loyal to the company or those who entered the service since July 1, 1922. "The Missouri Pacific Railroad, therefore, has decided to call upon the shopmen now in its employ to form an association for the purpose of negotiating an agreement covering wages and working rules, and also for the settlement of any grievances or disputes which may arise. "Loyal employees who remained in our service and those who entered the service of the company subsequent to July 1, 1922, hereby assured of permanent employment so long as they render satisfactory and efficient service. "Former employees who are satisfactory to the employing officer and who apply in person will be given preference in filling such vacancies as now exist, their seniority to date from the day on which they re-enter the service." Moves to Restore Trains Annulled in Missouri and Illinois. Official action was taken yesterday to force the restoration in Missouri and Illinois of passenger trains recently annulled by the roads with the explanation that a coal shortage was responsible. The Illinois Commerce Commission ordered the restoration of 15 passenger trains taken off recently by the Big Four. The trains were canceled without permission of the commission and are to be restored pending investigation, the order states. The train service involved affects St. Louis, Chicago, Mattoon, Mount Carmel, Danville, Kankakee, Seneca, Vincennes, St. Francisville and Indianapolis. The Missouri Public Service Commission instructed its secretary to inquire of the operating officers of all railroads in Missouri what trains removed in recent months with the explanation of a coal shortage, have not been returned to service now that the coal strike is settled. The attitude of the commission is that all trains removed for that reason should now be put back in service. Among the roads which discontinued trains were the Frisco, Missouri Pacific, Wabash and M-K-T.

JUDGE EXPECTED TO GIVE PATERNITY VERDICT SATURDAY

Improbability of Mrs. Tierman Making False Charge Stressed by Prosecution in Summing Up Case.

DEFENSE ARGUES REVENGE WAS MOTIVE

Both Sides Indicate Case Will Be Taken to Higher Court in Event of Unfavorable Decision.

By the Associated Press.
SOUTH BEND, Ind., Sept. 27.—With hearings in the case of Harry Poulin, charged by Mrs. Augusta Tierman with the paternity of her 10-month-old child, ended, persons interested in the outcome are marking time today, awaiting the verdict of Judge Chester L. Ducomb, which is scheduled to be announced Saturday morning. The hearings, begun more than a week ago, came to a close late yesterday, following completion of closing arguments by contending counsel.

The improbability of a woman in the position of Mrs. Tierman bringing before the public the story of her relations with another man, unless the acts actually occurred, such as the plaintiff has done, was emphasized by Prosecutor Jellison in summing up the case. He asserted that it has been shown that Mrs. Tierman's sole motive in bringing the court action was to make Poulin acknowledge the parentage of his own child.

Tierman has stood by his wife in this action, not for revenge, he continued, "but for the sake of justice. The case involves the right of a father to be called a father and to be king in his own domain."

In concluding, Prosecutor Jellison said: "We know that Mrs. Tierman is not a woman to compose a monstrous fabrication—to perjure herself in the eyes of her children. The question before the Court is 'who is the father of this child?'"

The evidence points to Harry Poulin. In closing their case the defense attorneys argued that the plaintiff had some ulterior motive for seeking revenge against Poulin and maintained that the plaintiff had not established that the baby might not be Prof. Tierman's offspring.

They emphasized the point that Prof. Tierman had at first accepted the child as his own. The action of these two persons, coming into court to prove this child illegitimate—to label it so that it can be scorned by the world for the rest of its life," said Attorney Swartz of the defense, "is to satisfy Mrs. Tierman's desire for revenge for Poulin's ignoring her."

Appeal of Case Indicated. It has been indicated by both sides that if a decision is rendered against them Saturday by Judge Ducomb, they will take the case to a higher court.

Prior to the arguments, which were limited to an hour for each side, several additional witnesses were called to the stand, two for the defense and three for the State. One of the three prosecution witnesses being Mrs. Tierman herself. Prosecutor Floyd O. Jellison having decided to call her back in an attempt to refute the absolute denial of her charges made by the defendant and other defense witnesses.

One of the defense witnesses, Mrs. Sara Worden, testified concerning Poulin's attendance at church on the nights when he is charged with having visited Mrs. Tierman. The other witness, Yee Woodruff, a lumberman, testified concerning one of the points presented as an alibi for Poulin.

The new witnesses for the State were Patrick Deran, a Notre Dame student, who refuted on portion of Poulin's testimony, and Mrs. Louise Powers, who said she had seen Mrs. Poulin but not her husband at church on the nights under question during Lent of 1921.

Sanctioned for Air Smuggling Plot.
By the Associated Press.
SAN DIEGO, Cal., Sept. 27.—James R. Hennessy, local commercial aviator, and W. W. Youngblood, San Diego sportsman, each were sentenced in the Federal Court here yesterday to serve 15 months in the Federal Prison at Leavenworth, Kan., and to pay a fine of \$500 following their conviction of conspiring to smuggle liquor from Mexico into the United States by airplane.

Missouri Pacific Railroad Company

Office of President

St. Louis, Mo., September 26, 1922

TO THE SHOPMEN OF THE MISSOURI PACIFIC RAILROAD:

The officers of this Railroad have so far restrained from issuing any statement with respect to the strike of July 1, believing that as long as there were any prospects of a satisfactory settlement no good could be thereby accomplished. It now appears that definite information as to our intentions and policy is due our employes in view of the misleading statements which have been made from time to time by leaders of the strikers.

Representatives of other organizations, with whom we have agreements, have approached the management in a spirit of friendly co-operation for the purpose of making some arrangement to compose the situation and return to service certain of our former employes.

We believed that many of our men were induced to go on a strike against their inclination and better judgement, and, therefore, were willing to take care of as many of them as we could, but it was found impossible to work out any such arrangement which would not result in injury to the rights and standing of the men who remained loyal to the Company or to those who entered the service since July 1, 1922.

The Missouri Pacific Railroad, therefore, has decided to call upon the shopmen now in its employ to form an association for the purpose of negotiating an agreement covering wages and working rules, and also for the settlement of any grievances or disputes which may arise.

Loyal employes who remained in our service and those who entered the service of the Company subsequent to July 1, 1922, are hereby assured of permanent employment so long as they render satisfactory and efficient service.

Former employes who are satisfactory to the employing officer and who apply in person will be given preference in filling such vacancies as now exist, their seniority to date from the day on which they re-enter the service.

(Signed) B. F. BUSH,
President.

How Much of a Good Thing

It is all years since I had my
trouble. It really gave me
back would not dream and I was
not to skin and bone. My doctor
gave me a starvation diet, and when
I was given worm I concluded it was
worth of a good thing. On the ad-
vice of my doctor I tried Mergal's Worm
Remedy, and am now entirely well.
It is a simple, harmless preparation
which restores the natural muscle firm-
ness, and gives the body the power to
resist and slay the larvae of the
worm which causes practically all
the ills and disorders of the
digestive system. One dose will
destroy the worms, and the worm
will be gone. It is a good thing.

Directions for Oiling Sewing and Other Machines

Remove the old oil that sticks to machines with Carbona Cleaning Fluid. It dries without wiping and is then ready for clean oil—makes the machine run easily.

CARBONA Cleaning Fluid

REMOVES GREASE SPOTS WITHOUT RUBBING OR SCRUBBING. (See illustration of a woman cleaning a machine.)

Labor Shortage Indicates Increased Production

Manufacturers here in St. Louis are finding it difficult to secure experienced help, which shows factories are busy and active buying has been resumed.

The Pfaffrock-Litton Furniture Co., Fourth and St. Charles, are advertising for upholsterers to work in their factory. Their big sale of living room suites at factory prices has made it necessary to increase production, and more upholsterers are needed at once. A word to the wise—this sale ends Saturday.

Who Has Burning Sore Feet, Corns or Bunions?

Here is Wonderful News!—For many years the callouses on my feet, the burning, and corns between my toes nearly drove me crazy. I tried all kinds of things without relief. Hearing about the quick relief and wonderful results obtained by danciers and athletes who used Gyp Foot Relief, my husband brought home a box. I used it a few times as directed, and to my surprise, the burning and soreness stopped, and the callouses just peeled off in my fingers, leaving the skin smooth. The soft corns between my toes seemed to fade away, and now I feel as if I had a pair of new feet. Before I used Gyp Foot Relief, my feet were constantly swollen, and now I can easily wear shoes a size smaller, with perfect comfort.

NOTE: Gyp Foot Relief, mentioned by Mrs. Beckman, is a secret from the desert! Applied in a minute, relief comes. A few minutes later—the pain is gone, tender burning, foot callouses, corns and bunions disappear as if by magic! No fuss—no bother—no delay. No bandages to use. No foot-baths. No inconvenience. So wonderful are the results from Gyp Foot Relief, that it drags itself through the streets of St. Louis. It is sold in this city by all good druggists including:

Wilson's Daughter Accuses Negro.

NEW YORK, Sept. 27.—Miss Margaret Wilson, daughter of former President Wilson, appeared in Essex Street Court yesterday as the complainant against William Cook, negro window cleaner, whom she charged with having stolen a \$100 gold watch and curtains and certain rods worth \$46 from her apartment in Greenwich Village.

PLAN TO REUCE STRAPHANGING OUTLINED BY U. R.

Double Track for Cherokee Line From Twelfth Street Viaduct to Russell Avenue Part of Program.

Various improvements to be consummated within the remainder of the year, as a sort of Christmas present to "the man on the sandbox" and the woman street car rider, have been announced by the United Railways.

The improvements, as explained in yesterday's Post-Dispatch, chiefly comprise the replacement of worn tracks with new ones and the construction of some new trackage, for \$1,351,680, authorization for which was given the receiver by Federal Judge Felt. This means that much noise, jarring and swaying of the cars will be eliminated. The straphangers' jury will determine the success of this work.

The running time of the Cherokee line will be cut down a bit by the construction of a double track on Twelfth street from the south end of the Twelfth street viaduct, at Chouteau avenue, to Russell avenue, utilizing that part of the street which was newly opened about two years ago. That will save the Cherokee cars from running down to Ninth street, the Tower Grove, Fourth and Bellefontaine cars will use this new route to Soudard street, there to turn west. Soudard street becomes Lafayette avenue at Fourteenth street. Suggestion has been made that the names of Soudard street and Lafayette avenue, east of Fourteenth street, be interchanged.

Track to Be Abandoned.

The tracks on Russell avenue, from Ninth to Twelfth; Eleventh street, from Chouteau to Park; Park avenue, from Twelfth to Fourteenth, and Fourteenth street, an alleyway, from Park to Lafayette, will be abandoned and possibly torn up. Traffic in general will be facilitated by the straightening of these lines.

A track will be added to the main line on Lafayette avenue, between Eleventh and Mississippi, and both tracks connected with those that run west from Mississippi avenue, for an eventual adjustment of the interlocking Tower Grove and Fourth routes.

Persons who work in the crowded wholesale and light district on Washington avenue will be glad to hear of an improved loop for Park, Park and Compton cars. A track will be built on Lucas avenue, from Tenth to Eleventh, so that some cars, now sent all the way downtown, may turn around quickly, instead of going to Franklin avenue, and the lot workers may have a chance to join the Seatholders' Union.

A switch will be put in at the northeast corner of Ninth street and Washington avenue, so that some southbound Bellefontaine cars may be turned back towards the north in rush hours, without making left-hand turns. The southbound cars of this line use Eighth street.

To Lighten Pine Street Burden.

The southbound track Twelfth boulevard will be connected across Pine street, where hitherto all southbound cars have had to turn. Some of the rush-hour Belt-Fourteenth cars will go straight across Twelfth to Clark avenue, instead of by way of Pine and Ninth street. The object is to lighten the traffic burden of Pine street, where 10 different lines send their yellow conveyances crawling homeward in the late afternoon.

Even automobilists will derive some benefit from the improvements. A jog in St. Louis avenue, at Prairie avenue, which is to be eliminated by the construction of a "cut-off" by the city, will be accompanied by a shift of the Cass tracks, making more room for machines.

New shed at Broadway and Taylor.

The opening of a new car shed, about Oct. 18, at Broadway and Taylor avenue, will relieve congestion of existing sheds, facilitate the supplying of rush-hour cars, and make necessary a number of new switches, as follows: Northeast corner of Taylor and West Florissant, northwest corners of Lee and Newstead, Grand and Hebert, and Grand and Natural Bridge. These will allow cars to be run from the new shed to the termini of various lines.

The new shed will house at first the following cars: Forty Bellefontaine, 30 Broadway, 10 Lee, 19 Sarah. It will replace the antiquated North Broadway shed, and relieve congestion in the Cass, Lee and Esplanade sheds, which has made it necessary to leave some cars outdoors all night. The United Railways has about 1540 cars and 13 sheds.

YOU'LL GET RID OF BLACKHEADS SURE

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this get two ounces of calomel powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin. Machines and soaps only cause irritation, make large pores and do not get the blackheads out. After they become hard, the calomel powder and the water simply dissolve the blackheads so they wash right out, leaving the pores clear. Anyone troubled with their natural complexion. Anyone troubled with their natural complexion. Anyone troubled with their natural complexion. Anyone troubled with their natural complexion.

This Will Ward Off And Break Up Colds

Just a teaspoonful of Dr. Caldwell's Syrup Pepsin removes the congestion.

THE two ailments that people generally regard as of the least importance are in reality the cause of most serious illnesses and of the greatest proportion of deaths. They are constipation and common colds. Many doctors now believe that colds, tonsillitis, a touch of malaria will cause constipation. Instead of constipation, being their cause. The fact remains that you seldom have a cold without constipation, due to general congestion. The only way to avoid colds is to keep up your vitality. You usually catch cold in the winter, you are run down. Therefore in cold weather exercise more; eat more fatty foods; drink four to six glasses of water a day; keep the head cool, the feet warm, the bowels open.

You are also less liable to colds if your system is free from intestinal poisons of constipation, so empty the bowels regularly with a plain vegetable laxative like Dr. Caldwell's Syrup Pepsin.

TAKE DR. CALDWELL'S SYRUP PEPSIN

The family laxative

YOU'LL GET RID OF BLACKHEADS SURE

There is one simple, safe and sure way that never fails to get rid of blackheads, that is to dissolve them. To do this get two ounces of calomel powder from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin. Machines and soaps only cause irritation, make large pores and do not get the blackheads out. After they become hard, the calomel powder and the water simply dissolve the blackheads so they wash right out, leaving the pores clear. Anyone troubled with their natural complexion. Anyone troubled with their natural complexion. Anyone troubled with their natural complexion. Anyone troubled with their natural complexion.

HOW MAN GOT FATAL ARSENIC DOSE A MYSTERY

Officers of Plant Say None
Was Ever Used in Building;
Others Who Ate Pie
Not Affected.

No arsenic in any form has ever been used about the plant of the Landis Machine Co., Second street and Olive avenue, where William T. Robinson, 50 years old, of 6138 S. Burban Avenue, who died Friday night of arsenic poisoning, became violently ill a short time after eating a lunch from the plant's cafeteria Friday morning, officers of the plant told a Post-Dispatch reporter yesterday.

As is known, Robinson's death was attributed to arsenic poisoning until an autopsy disclosed sufficient arsenic in the stomach and viscera to have caused death. The inquest has been left open, pending a report from the Health Department inspectors, directed yesterday to find out if any rat or bug poison had been used at any time in the machine company's plant, where Robinson was in charge of the shipping department.

Officers of the company, in declaring no such poisons had ever been purchased, pointed out that the building, of concrete construction, was only two years old and had harbored no rodents, while the cafeteria kitchen was kept in such condition as to make it unnecessary to use these destroyers. The arsenic, whether taken by Robinson accidentally or otherwise, could not have been obtained in the building, they asserted.

Robinson, who was popular with the officers and the men under him, went to work Friday morning apparently in good health and spirits, except that he remarked to an employee that his back was aching him. About 9 a. m. he went to the cafeteria kitchen, as is customary with many of the employees, and obtained a pint bottle of milk and piece of pineapple pie.

The lunch boy, Norman Becker, 14, of 1425 A. Benton avenue, says he gave Robinson the milk in a sealed bottle, delivered that day by a large St. Louis dairy company. Four other employees ate of the same pie with Robinson and neither they nor anyone else who visited the cafeteria, popular with the plant workers, was made ill in any degree.

After being given the lunch, Robinson descended along the stairway leading to his work on the first floor. As he went down, he called back in his usual high-spirited manner, "Good-bye, everybody." Nothing was thought of it.

H. A. Buhrmester, traffic manager, noticed Robinson at his lunch and saw him go to a drinking fountain in the room when he had finished. Instead of drinking direct from the fountain, Robinson first rinsed out the empty milk bottle and then drank from it, after filling it with water. Whether this was customary with him, Buhrmester does not know.

About half an hour later, Robinson became violently ill. He was urged to go to a nearby drug store, but refused, nor would he go home until about 2 o'clock, when an automobile was obtained for him. He had talked to his son by telephone, however, employees at the plant, and told him he would be unable to keep a downtown appointment with Mrs. Robinson.

At his home it was thought Robinson was suffering from acute indigestion. His illness continued during the day, in spite of home remedies, and around 11 p. m. his son called Dr. Robert Burns, with office at 4199 Olive street, and told him, Dr. Burns said, that he believed his father was dying. When the physicians reached the home, Robinson was dead.

Officers at the machine company say they do not think the milk bottle or pie were out of Robinson's possession at any time. He is not believed to have had any enemies. His friends say he was devoted to his family and had no business or other worries. He had just recovered from a case of blood poisoning, caused by an injury from a splinter in his hand, and seemed to be happy over his recovery.

ENDURING GRANITE

In Beauty, Strength and Durability signifying something beyond the mere span of mortal time.

Artistry—warrant of treatment—and a sense of right values enter into all our service. Whether the design be simple or more elaborate the same understanding and artistic feeling bring it to a distinctly pleasing accomplishment.

If you are considering a memorial which shall interpret human character and live through the years to come—we would be glad to serve. Materials from the most substantial sources. Workmanship of the highest degree. Prices in which full value is always present.

PART TWO.

STRENGTHENING OF GOVERNOR'S PEACE POWERS FAVORABLE

Convention Tentatively
Aides to Give State Executive
Broader Authority
Enforce Laws.

COULD CALL UPON
LOCAL OFFICIALS

New Section Would Permit
Employment of County
and City Forces in
Distant Localities.

By a Staff Correspondent of the
Post-Dispatch.

JEFFERSON CITY, Sept. 21.—The convention yesterday tentatively decided in committee of the whole that the Governor of Missouri shall be a real "conservator of the peace" instead of a figurehead, by giving him the authority to call upon the local police and fire departments of the State.

This paragraph, an amendment to the report of the convention's Committee on Executive and Ministerial Departments, would be a new section of article 5 of the Constitution. It was drafted by George Williams of Webster Groves, one of the delegates at large to the convention, and a former Circuit Judge of St. Louis. The resolution passed 23 to 19.

The force of the provision is understood to be to call upon the corresponding section of the present Constitution is that the Governor shall take care that the laws are faithfully executed, and that he shall be the conservator of the peace throughout the State.

Thus the present section has been "strengthened," it being necessary for the Governor to call upon the local police and fire departments in the event of a riot or other emergency which may arise in any locality where local officials are unable to do their duty.

Delegates' Purpose. Where local officials are derelict in their duty, it is the purpose of the provision to enable the Governor to remove them, which, if successful or unsuccessful, does not stop conditions subject to complaint. As construed by the convention, it is the purpose of the provision to enable the Governor to call upon the local police and fire departments in the event of a riot or other emergency which may arise in any locality where local officials are unable to do their duty.

Legislation by the General Assembly as to the detail of how the measures should be carried out, the pay of such emergency forces, and the manner of their control, even temporarily, would enable the use of such forces in the event of a riot or other emergency which may arise in any locality where local officials are unable to do their duty.

Qualifications of Executive. The convention yesterday tentatively recommended that the Governor of Missouri be a native-born citizen of the United States, at least 35 years of age, and a resident of the State for at least five years.

That standard, which had been proposed in the committee report, is to be adopted by the convention. It is the purpose of the provision to enable the Governor to call upon the local police and fire departments in the event of a riot or other emergency which may arise in any locality where local officials are unable to do their duty.

STRENGTHENING OF GOVERNOR'S PEACE ADVISERS FAVORED

Convention Tentatively De- clared to Give State Execu- tive Broader Authority to Enforce Laws.

WOULD CALL UPON LOCAL OFFICERS

Section Would Permit Employment of County and City Forces in Dif- ferent Localities.

By CHARLES W. WOOD, Special Correspondent of the Post-Dispatch.

NEW YORK, Sept. 27.—The convention yesterday tentatively decided in committee of the whole that the Governor of Missouri shall be a real "conservator of the peace" and that he should be empowered to call upon local officers for aid in enforcing the laws and may exercise the following provision:

"The Governor shall be a conservator of the peace throughout the State. He shall be empowered to call upon local officers for aid in enforcing the laws and may exercise the following provision:

"The Governor shall be a conservator of the peace throughout the State. He shall be empowered to call upon local officers for aid in enforcing the laws and may exercise the following provision:

Three Eight-Hour Shifts System the More Economical, Industrial Committee Says

Proven Better Than Two Shifts of Twelve

Very Few Employers Who Have Made the Change Ever Care to Resume Abandoned Schedule — Need of Elimination of Waste.

By CHARLES W. WOOD, Special Correspondent of the Post-Dispatch.

NEW YORK, Sept. 26.—"Given good management it is far more economical to employ three shifts of eight hours a day than to employ two shifts on a 12-hour basis. There are no technical difficulties confronting American industries to keep them from changing from the two-shift to the three-shift basis.

"There is no evidence whatever that American workers, changed from the 12-hour to the eight-hour day, are inclined to misuse the leisure which they get.

"Also there is no difficulty in dividing responsibility over three shifts instead of two. The employer who persists in maintaining the 12-hour day in factories which work continuously does so through prejudice rather than through a knowledge of modern industrial facts.

"Very few employers—so small a percentage that their cases are not worth considering—have changed from the two-shift to the three-shift basis, ever resume or care to resume the abandoned schedule.

"This is not propaganda. It is not a labor document. It is an abstract of the findings of the Committee on Work Periods in Continuous Industry of the Federated American Engineering Societies, as given to me by L. P. Alford, a member of the committee and editor of Management Engineering.

Employers Who Change Fortunate.

"If an employer finds that his men are grumbling over the two-shift system, Alford said, he finds them grumbling for an eight-hour day instead; if the men are almost unanimous in the demand and he doesn't see how he can keep them from it, he should consider himself especially lucky.

"Why? Because, as Alford explained, the only real difficulty in shifting from the 12 to the eight-hour day is in the unwillingness of the men to make the change. If they think it means a reduction in wages that will result in a loss of income, it is almost essential to educate them to the lasting advantages of the shorter work period. If they are already clamoring for the change, they have already been educated, and the employer has this big job already done for him.

"Doesn't the change generally entail a reduction in wages?" I asked Alford.

"No," he said. "It generally means a slight reduction in the weekly income for a while. But it means an increase in the wage rate per hour, and because of the change in the rate of production possible it builds the foundation for future wage increases all around. The tendency, according to the findings of our committee, is for the standard of living to be maintained, and the earnings to equal the day rate obtained throughout the plant. Where the 10-hour day is the rule for laborers, the per-hour increase of the men on the continuous process would then amount to 25 per cent."

Those Directing Survey.

The committee's survey was carried on under the direction of two expert engineers, Horace B. Drury, whose independent reports concerning the iron and steel industry had previously received country-wide attention, and Bradley Stoughton, formerly secretary of the Society of Mining and Metallurgical Engineers.

In this survey, however, Stoughton was assigned to cover the iron and steel industry and Drury to cover the other industries where the process continues 24 hours a day.

"When the average American thinks of the 12-hour day," said Alford, "he usually thinks of the United States Steel Corporation. Our report goes to show that we have been somewhat unjust to steel in this respect. It may be a surprise to most people to learn that there are fully as many American workers on the 12-hour basis outside of the iron and steel industry as there are within it. Of course, the steel industry is the greatest outstanding example of this practice, and it is only natural that it should receive the brunt of criticism in the matter."

"Is the eight-hour day always more economical to employers than the 12?" I asked.

"We cannot say that," said Alford. "But where good management according to modern standards exists, it is. If men are let alone, if no attempt is made to coordinate their efforts or to interest them in their work, it is possible that they will paste on more labels or pick more hops in 12 hours than they will in eight. But modern industry means co-ordination of effort. It necessitates synchronization of all the processes which in turn necessitates attentiveness and teamwork. Attentiveness cannot be sustained during the long period. The intensity of the work-

ACTIVITIES OF DRY FORCES ON SEAS TO BE CURTAILED

Search of Foreign Vessels May Be Made Only in Event Small Boats Run to Shore, It Is Decided.

SHIPS OUTSIDE 3-MILE ZONE NOT UNDER LAW

Great Britain Taking Up With Dominions U. S. Note Regarding Dry Law Enforcement Along Coast.

By the Associated Press.

WASHINGTON, Sept. 27.—Cur- tailment of the activities of American prohibition enforcement officers on the high seas has been decided upon by President Harding and his Cabinet.

Search of foreign vessels for contraband liquor outside the international three-mile limit may be made hereafter, it was stated authoritatively yesterday, only in the event that the vessels actually establish communication with American shores by means of their own crews or small boats. Search under other circumstances was upheld recently by Federal District Judge Morton at Boston in the case of the British schooner Grace and Ruby. An appeal in that case has been taken to the United States Supreme Court and it was stated that a decision would be hastened.

Foreign vessels outside the three-mile limit unloading their cargoes of contraband run on to craft from within the Federal law in the view of high administration officials. The American craft undertaking to land the contraband, however, would be subject to search and seizure.

Search Under Old Law.

Enforcement of the prohibition act at sea, which for some time has been the subject of diplomatic ex- changes between the American and British governments, occupied much of the time of the Cabinet yesterday. Search of foreign vessels for contraband liquor within 12 miles of the coast line has been undertaken by United States officers under the direction of the customs and under a more than century-old customs law. The executive and his advisers took the view that there were some grounds for this law out of harmony with international law and which, if carried out, probably would involve the United States in international embarrassments.

Regulations in accord with the decision of the Cabinet and affect- ing the customs service as well as the prohibition bureau will be issued as soon as practicable. It was stated last night at the Treasury.

"Over Act" Watched For.

Prohibition Commissioner Haynes said the prohibition bureau in sup- plying craft "simply had furnished the law as it applied to the normal, legitimate operations" of the customs au- thorities, a request from the Treas- ury for an appropriation to cover a similar arm of the customs service being wrong with the prohibition law.

Activities of customs authorities within the 12-mile limit, officials explained, have been governed by whether a foreign craft committed the act of smuggling. If it did, they had no right to land liquor and that any attempt to land liquor by means of a ship's own boats or to break out a contraband cargo for loading into other craft from shore was still under the prohibition law. Both always have been considered as attempts to avoid the customs laws, it was stated.

Britain Considering Note.

Great Britain has not yet replied to the American note regarding the "dry" law enforcement along the coast, but this subject is known to have been touched upon Monday during visits of Sir Auckland Geddes, the British Ambassador, to President Harding and Secretary Hughes. The British Government is understood to have taken the whole question up with its dominions and colonies, since some of these would be most directly affected by any agreement entered into.

The American note is understood to have suggested that American offi- cials could monitor the exportation of liquor smuggling. If British authorities exercised greater care in the registration of former American vessels and in the issuance of clearances, the British Govern- ment agreed with the United States on arrangements for reciprocal rights of the search of vessels outside their respective territorial waters.

Padewski for President Boon.

Copyright, 1922.

BERLIN, Sept. 27.—Polish con- servatives are backing Padewski for President and are planning to oust Field Marshal Pilsudski, in- cumbent. The Ultra-Conservative and National Democrats and the Middle parties have agreed to unite under the leadership of the famous plan- ist. Pilsudski, at the head of a com- bination of the military party and the Socialists, drove Padewski from office two and one-half years ago.

BIG REPUBLICAN MAJORITY OF TWO YEARS AGO IN OHIO APPARENTLY MELTING AWAY

Gubernatorial Fight Best Index, With Indica- tions That Democratic Gains Will Elect Several Congressmen.

By DAVID LAWRENCE, Special Washington Correspondent of the Post-Dispatch.

(Copyright, 1922.)

CLEVELAND, O., Sept. 27.—Pres- ident Harding has lost ground in his home State. Nobody can upon anal- ysis put his finger on the exact re- son. It was inevitable that an un- precedented majority of 400,000 Democrats of political sagacity who will say that it has vanished alto- gether.

This is normally a city of Demo- cratic tendency. To win this country often means a State victory. Yet with all the criticism of the Harding administration that one hears, there is no corresponding enthusiasm for the Democratic party. The Republi- cans may be in disfavor, but they haven't grown bad enough in public esteem to send the tide in the other political direction as yet.

Pomerene Personally Popular.

The best indication of what is go- ing on in Northern Ohio is the con- sideration on Senator Pomerene's fight for re-election. He is personally popular. Republicans by the score sing his praises in spite of the fact that he is a Democrat. Lots of Re- publicans consider him a strong man. Pomerene has refused to come out as a labor union man and has pursued a courageous course in Congress. On the surface it would seem that such a man would have a certain victory. Yet his own friends admit he has "a hard fight ahead" and they are frankly doubtful. Labor is fighting him and, as for Republican busi- ness men, they are influential but not so numerous as the laborers. Many of them admire a Democrat of cour- age, but they do not always let their admiration pull them away from party feelings.

Paradoxical as it may seem, the gubernatorial fight here will be a better index of the state of mind of the public on the Harding adminis- tration than will be the congressional contests. Carroll Thompson, Re- publican candidate for the govern- orship, is an intimate friend of Pres- ident Harding. The incumbent at- tacks the Republican administration, but he is not re-nominated. Strictly on the record, Thompson will not have much of an opportunity on the stump. Vic Donahy, the Democrat- ic candidate, is popular. He ran well ahead of his ticket in 1920.

The friends of Thompson will wage a stand-by-the-President campaign. Four hundred thousand is a big ma- jority in a State of 1,200,000. If he comes, Donahy will cut it down ex- tensively. It's too early to say who will win, but as Donahy takes large slices out of the Republican lead of two years ago, he will pull with him many Democratic Congressmen. The Republicans have all the members of Congress from Ohio now. They may lose half of them.

Conclusion of Statisticians.

Benjamin Karr, statistical wizard of the Cleveland News, a Republican newspaper, took the Maine election figures and calculated the ratio of gain and loss if applied to the Ohio and comes to the conclusion that the Democrats would, under those cir- cumstances, elect 11 out of 22 Rep- resentatives. Carrying it through- out the nation, he opines that the present Republican majority in the House of 167 will be cut down to 60.

The wet and dry issue will be fore- cast in a new form. A referendum on an amendment to the State Constitu- tion permitting light wines and beer will be voted on Nov. 7. It will hard- ly be a fair test. Many people who might approve, know it would con- flict with the Federal Constitution, and they will not waste time voting on it. Nevertheless, the issue will be widely discussed and the candidates will win and lose votes by their re- spective declarations on the subject.

Again, in Cleveland, as in Western New York, the writer discovers the public mind disturbed about indus- trial issues. That headquarters of the

ROOT SAYS LAWS AGAINST STRIKES WILL BE PASSED

Declares Republican Con- gress Will Prohibit Walk- outs Cutting Off Vital Food or Service.

WORKER'S RIGHTS WOULD BE PRESERVED

His Liberty to Work or Re- fuse to Work Will Be Safeguarded, New York G. O. P. Convention Hears

By the Associated Press.

ALBANY, N. Y., Sept. 27.—Early adoption by the Republican Congress of laws at once prohibiting strikes which "cut off the supply of food or service necessary to the life of the community," and at the same time protecting the workman's liberty, was predicted by Elihu Root, temporary chairman, in his address before the Republican State convention to- day.

Touching on the recent shop and coal strikes, Root said:

"We are all employers and labor- ers and the general public is apt to be impatient about strikes. So long as strikes were a contest between laborers and employers to secure for labor its fair share of the new wealth which has come to mankind through invention and discovery and applica- tion of science, and the art of orga- nization, the sympathies of the Amer- ican public were with labor. When a strike becomes an attempt to co- erce the public into taking action by cutting off the supply of food or service necessary to the life of the community, I am sure that public feeling goes the other way."

"I think that in this country we are gradually approaching the point where the law of the land will pro- vide for distinguishing between the two kinds of strikes, and between the public against compulsion by threat of peril to life or of destruc- tion to the machinery of civilization, and at the same time protect the workman's liberty to refuse to work and the workman's liberty to work. If we cannot come to that point then the American government of all the people by all the people, for all the people will fail, and a few will rule the many. Perhaps we are approach- ing that point as rapidly as is prac- ticable and wise to attempt."

President Harding, the Root.

"I am inclined to think that nothing could be better at this stage of the perennial process of industrial adjustment than the condition which has not been reached through the patience and sympathetic influence of the President. That condition is full and impartial investigation into the rights and wrongs upon which the public mind has been misled, accompanied by a clear and uncom- promising declaration by the President of the rule of law and liberty, which is to be applied to the results of the investigation."

Declaring that the five things most needed when President Harding took office were an ending of "the auto- cratic method of government com- mitted to for the carrying out of a law, abolition of an immense and extravagant scale of expenditures es- tablished during the war, restoration of normal industrial production, es- tablishment of international peace, and convalescence from the con- dition of feverish excitement incident to the war." Root asserted the Harding administration had accom- plished all these.

He defended Congress against "Congress-do-nothing" criticism, as- serting the true function of a leg- islative body is to discuss a multi- tude of projects and refuse action upon at least nine-tenths of them.

ASSOCIATE JUSTICE CLARKE DEFENDS THE SUPREME COURT

Asks Bar Association Members to Join in Effort Against "Present Period of Criticism."

By the Associated Press.

CLEVELAND, O., Sept. 27.—As- sociate Justice John H. Clarke of the United States Supreme Court, in his first public address since his resig- nation from the nation's highest tri- bunal, before members of the Cleve- land Bar Association here last night, called for an end to the bar to join in his effort and defense of the national Supreme Court against what he termed "the present period of criticism."

Justice Clarke, who announced in his letter of resignation that he in- tended to devote much of his leisure time to campaigning for the League of Nations, participated in by the United States, did not mention the League in his address.

"It is not for me to eulogize the United States Supreme Court," Jus- tice Clarke said. "I believe it is more firmly imbedded in the affections of the people of the United States than ever and because there is criticism of it, I urge the people not to be dis- couraged or the lawyers to be afraid."

BREWSTER AND HYDE IN CONFERENCE HERE

Republican Campaign Matters Discussed With Department Heads at Headquarters.

R. R. Brewster of Kansas City, Republican candidate for United States Senate, arrived here this morning for conference with Gov. Hyde, Dr. E. B. Clements, chairman of the State committee, and those in charge of departments at Re- publican State headquarters. Brew- ster opens Saturday at Warrens- burg.

He was accompanied by Walter S. Dickey, also of Kansas City. Gov. Hyde came here yesterday, expected to meet Brewster then, but through a misunderstanding the latter failed to arrive. The Governor will return to Jefferson City in the afternoon and Brewster and Dickey are ex- pected to go back to Kansas City tonight.

The conference said the discussions today will be along somewhat tech-

MAN AND SISTER RELEASED
Were Arrested After Body Was
Found in River.

Associated Press.
POPULAR BLUFF, Mo., Sept. 27.—
A man and his sister, who were
arrested in connection with the death
of a man in the Black River, 20 miles
west of here, four months ago, were
released yesterday by Prosecuting
Attorney Kinder, who announced
that he did not have sufficient evi-

dence to connect them with the
crime. The trial of Corley was
postponed to Saturday.

Two Killed When Train Hits Auto.
By the Associated Press.
MOBRIDGE, S. D., Sept. 27.—
Mrs. J. D. McClane of Whitesh.
Mont., and her daughter, were killed
instantly and a 13-year-old son in-
jured seriously when their automob-
ile was struck by a westbound
train on the Chicago, Milwaukee &
St. Paul Railway west of Jova yes-
terday.

Luxurious Comfort
Is Knitted Into the
"NEVERSAG"
Knitted Wire Bed Spring
REG. U.S. PAT. OFF.

Different From All Others
The Neversag is actually knitted from one continuous strand
of tempered wire—there are no loose ends of wire in the
fabric to catch and tear the bedding. The knitting is an ex-
clusive Neversag feature—in addition to saving the bedding
it prevents any sagging or side sway and makes an exceptionally
smooth, form-fitting surface. Comfortable, noiseless, sanitary
—the ideal Bed Spring. Guaranteed for 25 years.

AMERICAN HISTORY FOR AMERICAN CHILDREN

How the Bold Norse Mariners, in Tiny Ships,
Navigated the Ocean Highways Unafraid.

By HENDRIK VAN LOON,
Author of "The Story of Mankind."

THE ships of these Norsemen are very well known to us. The people
of Scandinavia were heathen. When one of their great sea kings died,
they buried him, together with his ship and his arms and some slaves
who were to wait upon his needs in Walhalla. They dug a deep hole in the
earth and then covered ship and men and arms with a low mound.
In our own day the historians of Norway have discovered these
mounds and they have very carefully taken away the earth until the ship
has become visible.
When you go to Christiania you can see two of these ships. They are
very impressive. Not because they are so large, but because they are so
small. Instinctively you feel a deep respect and admiration for the men
who were willing to risk their lives in such a clumsy and insignificant-
looking craft.
The average oyster fisher would not think of crossing the ocean in his
little scow. The Norsemen, with vessels of 20 to 30 tons, sailed as far as
the Black Sea and the coast of America.
There was no extra deck on board these ships, but there was a little
wooden house, resembling the blockhouses of the earliest American set-
tlers. In these the women and, perhaps, the Captain, could take a nap
when the ship was not flooded by the high waves.
The vessels had a flat bottom. It was easy to pull them on shore when
night came and navigation became dangerous. The steering was done with
a large wooden rudder, and the shields of the soldiers were hung across
the sides, making a safe bulwark against hostile arrows.

SHOT BY WIFE, MAN KILLS HER
Illinoisan Wrests Weapon From
Woman After He Is Wounded.
By the Associated Press.
DANVILLE, Ill., Sept. 27.—After
being shot twice through the ab-
domen by his wife, last night, John
Hedrick, a steamfitter, wrested the
weapon from her and sent four bul-
lets into her body, killing her in-
stantly. Hedrick is probably fatally
wounded. The couple had been
estranged and Hedrick had called
at the home of his wife when the
shooting occurred.

**TRAFFIC CASES 52 PCT.
OF POLICE COURT WORK**
Figures for Last Eight Months
Compiled for Use in Plea
for Traffic Court.
Fifty-two per cent of the 23,584
cases tried in the two city courts
from Jan. 1 until Aug. 31 of this
year were traffic cases.
The clerk of the courts has com-
piled the figures for use at a con-
ference in the Mayor's office next
Monday, at which the St. Louis Safe-
ty Council will urge that one of the
courts be designated for the trial of
traffic cases exclusive.
The number of traffic cases, in-
cluding arrests for careless driving,
speeding, no tail light, failure to
stop at boulevards, wrong parking
and passing stationary street cars,
was 12,332. The total number of
misconduct cases was 6889 and of
immorality cases, 4263.
Collections of Fines.
In the court presided over by
Judge Homer, 13,723 cases were tried
during the period and \$23,117.50 in
fines collected. In the court presid-
ed over by Judge Mix, 9861 cases
were tried and \$14,905 in fines col-
lected.
Judge Mix assessed a total of
\$5818 in fines against persons con-
victed of careless driving, collecting
\$1810. During the same period
Judge Homer assessed a total of
\$2751 on this charge and collected
\$1378, the total of the two courts
being \$8269 fines assessed and \$2688
collected. The report does not dis-
close why the remainder was not
collected.
Judge Mix's fines for speeding
during the period totaled \$19,172,
and collections were \$6103.50. Judge
Homer's assessments on this charge
were \$12,378 and his collections
\$8306.
Total in Two Courts.
Total cases and fines collected in
the two courts for the years follow-
ing 1916 were: 1917, 28,662 cases
and \$29,098 fines collected; 1918,
29,035 cases and \$19,353 collected;
1919, 31,525 cases and \$53,889 col-
lections; 1920, 26,765 cases and \$63,
160 collections; 1921, 28,705 cases
and \$56,614 collections.

**PET PIGEON TAKES WALKS WITH
MISTRESS; OBEYS COMMANDS**
"Mosby" Apparently Understands Its
Name—Will Be Taught New
Accomplishments.
The pet pigeon of Louisa Young,
a negro living at 2327 Carr street,
takes daily walks with its mistress.
"Mosby," as the educated bird is
called, accompanies its owner each
day as she goes about, and on trips
to stores and friends in the neigh-
borhood it has become a familiar
sight, strolling along beside her.
It was trained to cross the street
to a store and return first, and its
accomplishments now include appar-
ent understanding of its name and
commands to stop or go ahead. A
small red whip has aided the owner
in guiding her pet along the side-
walk, but she rarely needs to use it
now. She intends to teach "Mosby"
other tricks soon, but feels its ac-
complishment at present has earned
it a respite from the toll of learning
new stunts.

ERY, ITCHY SKIN
QUICKLY SOOTHED
BY THIS SULPHUR

Mentho-Sulphur, a pleasant cream,
soothe and heal skin that is ir-
ritated or broken out with eczema;
that is covered with ugly rash or
pimples, or is rough or dry. Noth-
ing soothes fiery skin eruptions so
ably, says a noted skin specialist.
The moment this sulphur prepara-
tion is applied, the itching stops, and
after two or three applications the
eczema is gone and the skin is de-
lightfully clear and smooth. Sulphur
is so precious as a skin remedy be-
cause it destroys the parasites that
cause the burning, itching or dis-
agreement. Mentho-Sulphur always
heals eczema right up.
A small jar of Howies Mentho-
Sulphur may be had at any good
drug store.

RED CROWN GASOLINE
Your Guarantee of Service

Your Neighbor Is Using Red Crown The High-Grade Gasoline Are You?

Red Crown is quality gasoline. It is made to give a maximum of
satisfactory service in the modern automobile engine. It is made
to fit your car.

It starts quickly, accelerates smoothly, and delivers the power.

In the past few weeks the number of our customers has largely in-
creased. Motorists who had been buying gasoline indiscriminately
have turned to Red Crown. They have proved by trial that it
gives them the snap and go they desire.

Red Crown delivers a maximum of mileage because it vaporizes
to the last drop. There is no waste.

As the Cards Have Only Four More Games to Play, It Looks Pretty Much Like First Division

Wray's Column

Lajoie and the Monument.

IF the suggestion to make the American League trophy honor retroactive becomes a reality, certain embarrassments may arise when the name of Napoleon Lajoie is brought up for consideration.

Once upon a time the American League had a privately sponsored greatest player trophy, an automobile being the prize of the player chosen. The award of this prize one fall about 15 years ago caused the greatest noise in the baseball world that had been heard in many a campaign.

As a result one manager was deprived of his position, one ballplayer was railroaded out of the league and one prospective American League umpire lost a chance to get the job he coveted.

But Larry got his automobile. And so did Ty Cobb, the automobile company cutting the Gordian knot of a nearctic by presenting both rivals with a machine.

Cast of Characters.

CLEVELAND was playing a double-header, its final two games of the season, here, Jack O'Connor was manager of the Browns; Harry Howell was an aspirant to major league umpiring berth; and Red Corriden was playing third base for the Browns.

Cobb and Lajoie were neck-and-neck in the race and Lajoie needed eight or nine hits to beat Ty Cobb for the Chalmers trophy. At that time Lajoie was a terrific line-shot hitter. He was the best natural swinger in the game and a bunt was as foreign to him as a bat.

Conceive the surprise of the crowd when Larry proceeded to lay down a bunt toward third base, eight out of the nine times he went to the plate.

It may have been astuteness that caused Larry to hit upon this plan. Corriden naturally was playing back on the grass. To play close in on Larry meant a serious risk of having a leg taken off by one of his rifle-shot drives. None can blame Red Corriden for discretion, if that was what caused him to play back.

Six Safe Bunts to Third.

HOWEVER, the fact was that throughout inning after inning of both games, Corriden camped back at the edge of the grass and time after time Larry laid down a bunt and got away with it because of the deep throw necessary.

There was a lone exception. On that occasion Larry's bunt developed into a grass-cutter to the shortstop, who fielded poorly and threw wild to first, and Larry was safe.

As the day came to a close it developed that Larry had made only eight hits out of nine times at bat, because the official scorer had ruled that Larry had failed to beat out a sacrifice bunt, but was safe on Corriden's error.

Just before the close of the game the official who scored the play was handed a note. It was from an interested person. It read:

"There is a suit of clothes in it for you, if you can see your way to scoring that error as a hit for Lajoie."

The official scorer put the note in his pocket—but the box score sent out that night credited the great Napoleon with eight hits out of nine times up (one at bat being unofficial) and the Browns' fielder with an error.

At the newspaper office that night the official scorer's phone rang. A "friend of Lajoie" was calling to ask if there wasn't any way in which the official scorer could be made to view that error in the light of a base hit.

U. S. Polo Stars Play Poorly in Beating Rivals

Meadowbrooks, Who Face Argentine Team Next Week, Barely Beat Flamingoes.

By Teased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 27.—The great Devereux Milburn and young Tommy Hitchcock, two of the "Big Four" who are to defend America's last polo ditch against the Argentine invaders next week, came in for close scrutiny at Westbury, Long Island, yesterday when the Meadowbrook team just managed to eke out a victory by a score of 12 to 10 against the scrappy Flamingo combination.

The famous international players were not at their best. Their striking lacked some of its customary sting and their riding, while cool and confident, was at no time brilliant. All in all, the polo they played was short of that exhibited on Monday by Stoddard and Webb, their teammates on the "Big Four."

Unless America's representatives get the opportunity to play together more than a few times, within the coming days, they will find themselves at a distinct disadvantage when they face the smooth-playing Argentines. Not only Stoddard and Webb, but Hitchcock and Milburn will have to be on top form to hold the South Americans even, let alone beat them.

Flamingoes Prove a Surprise.

The Meadowbrooks had more trouble defeating the Flamingoes than expected. They found difficulty in overcoming a five-goal handicap conceded the South Americans, principally by the sterling work of Prince at back. And they found the Flamingo forwards, East and Cooley, constantly irritating.

Only on a few occasions did the Meadowbrooks show flashes of their true prowess. Most of the time they were simply four individuals, two of whom, Von Stede and Bacon, could not be relied upon.

The Flamingoes were forced to play without the service of Benny Gaffin, the irregular No. 2. But they had in his place Malcolm Stevenson, one of the best pivots on horseback, whose team, the Orange County four, withdrew from the Meadowbrook tournament because of the death of C. C. Rumsey, its No. 2, in an automobile accident.

Stevenson Shows Strength.

Stevenson was a steady influence on the Flamingoes. Time after time he turned over shots to East and Cooley, or turned to Prince on defense. He was a powerful factor in the Southerners' excellent showing.

Prince played top-notch polo at all times with rich brisance and accuracy on either side of his pony, rode like a demon and halted many a shot speeding on its way to Flamingo goal post. In the final period Prince came up to hasten the attack, with the result that the game ended in a whirlwind of smart polo.

Developing a new record is not remote since a number of the "one way hits" are on both clubs. The records of Sept. 23 show Ruth and Bob Meusel to have been third and sixth respectively in the American League and Emil Meusel and George Kelly to have been fourth and fifth respectively in the other league in "fence busting."

No player has made more than two home runs in one game in a world's series and only three men have accomplished this. They are Pat Daugherty of the Boston Americans in 1903; Harry Hooper of the Boston Americans in 1915 and Benny Kauff of the Giants in 1917.

Football Hurts Send Two Tiger Stars to Hospital for Repairs

COLUMBIA, Mo., Sept. 27. TONY BUNDSCHU, University of Missouri halfback, suffered a dislocated shoulder in scrimmage yesterday afternoon when he fell in an attempt to block a punt.

He will be out of the game at least a week, according to physicians.

Bundschu was sent to the university hospital, where he joined Chambliss, another varsity backfield candidate, who suffered a broken leg in scrimmage, last Saturday afternoon.

"Pepper" Martin Defeats Sullivan In Whirlwind Go

By Bert Igoe, The Post-Dispatch's Eastern Boxing Authority.

NEW YORK, Sept. 27.—Pepper Martin won the most thrilling battle of his tempestuous career when he earned the judges' verdict over Kid Sullivan at Elberts Field, last night.

Floored twice in the third round, he came on in magnificent fashion to win the hardest bout of his life. He dropped Sullivan in the eighth for a count of nine and then it was Sullivan's turn to show the stuff he is made of. Groggy and practically helpless, he got up and, with an astonishing display of grit, fought back like a tiger. At the bell he had turned the tide of defeat and sent Martin to his corner as groggy as himself. It was superb fighting, as courageous an exhibition as eyes ever looked on.

Martin won because of his ability to take what came his way with a grin. When he was dropped in the third round he refused to take a count, but bounded to his feet and went back at his man like one possessed.

Sullivan, not as speedy as Martin, was ever dangerous, with his right hand poised for a knockout. Martin had to travel like an express train to keep his chin out of range of that palmed bomb. Martin employed a sweeping left and right hook to the body and he used it so frequently that Sullivan was slowed to a walk at the end.

As a matter of fact Martin wasn't feeling any too chipper himself. The pace had been maddening and the

wonder of it all was that either man made the grade. Fights like this one do not grow on trees, we'll tell the world quite fairly.

FAVORITES WIN IN WOMEN'S NET TOURNAMENT

ARLINGTON, N. Y., Sept. 27.—Favorites advanced without upset yesterday in the third round singles of the women's invitation tennis tournament on the courts of the Ardsley

Club, for the trophy now held by Mrs. Mollie B. Mallory, of New York, national women's champion.

The title holder, who gained her fourth round bracket Monday did not play in the singles yesterday, but, paired with Mrs. Gouverneur Morris, she defeated Miss Florence Ballis and Miss Margaret Grove, of New York, in the first round of the doubles, 6-3, 6-3.

Miss Mary K. Browne, of Los Angeles, is expected to start play in the tournament today.

In the Matter of Clothes

Fine quality is the first essential—that's why we exercise such care in having our woollens woven to order especially for us by the finest Foreign and American looms; and by devoting our utmost skill in the designing, cutting and tailoring, we know they will retain the exclusive appearance which is soon lost in less perfect clothes.

Our prices are unusually low because we are content with a smaller profit than would be possible to a business of less volume.

Suit or Overcoat. Exceptional Values.

Exide Batteries

The electric man

Since before the Pyramids were built stone upon stone, men have toiled like beasts of burden. But a rapid change is being wrought in industry, a change that is peculiarly American in spirit and in efficiency.

Progressive manufacturers have found a way to move loads more humanly, more rapidly, and at less cost than by man-power. That way is by the use of little indoor trucks, propelled by tireless Exide Batteries, such as you see, piled high with baggage, weaving their way about railway stations.

Exide Batteries not only propel trucks, passenger automobiles, mine locomotives, and submerged submarines, but they send your voice over the telephone, light farm homes, and operate the fire alarm.

Backed by experience in building batteries for every purpose since the beginning of the storage battery industry, it is surprising that the Exide made for starting and lighting automobiles is known as the long-life battery?

For real comfort in motoring you want a battery that is powerful and reliable, and for economy you want one that lasts long. There is no need to deny yourself an Exide when you need a new battery, for there is one the right size for your car at a nearby Exide Service Station.

Whatever makes of battery is in your car, you can be confident of skilled repair work, fair prices, and reasonable advice at the nearest Exide Service Station.

The Meadowbrooks had more trouble defeating the Flamingoes than expected. They found difficulty in overcoming a five-goal handicap conceded the South Americans, principally by the sterling work of Prince at back. And they found the Flamingo forwards, East and Cooley, constantly irritating.

Only on a few occasions did the Meadowbrooks show flashes of their true prowess. Most of the time they were simply four individuals, two of whom, Von Stede and Bacon, could not be relied upon.

The Flamingoes were forced to play without the service of Benny Gaffin, the irregular No. 2. But they had in his place Malcolm Stevenson, one of the best pivots on horseback, whose team, the Orange County four, withdrew from the Meadowbrook tournament because of the death of C. C. Rumsey, its No. 2, in an automobile accident.

Stevenson Shows Strength.

Stevenson was a steady influence on the Flamingoes. Time after time he turned over shots to East and Cooley, or turned to Prince on defense. He was a powerful factor in the Southerners' excellent showing.

Prince played top-notch polo at all times with rich brisance and accuracy on either side of his pony, rode like a demon and halted many a shot speeding on its way to Flamingo goal post. In the final period Prince came up to hasten the attack, with the result that the game ended in a whirlwind of smart polo.

Developing a new record is not remote since a number of the "one way hits" are on both clubs. The records of Sept. 23 show Ruth and Bob Meusel to have been third and sixth respectively in the American League and Emil Meusel and George Kelly to have been fourth and fifth respectively in the other league in "fence busting."

No player has made more than two home runs in one game in a world's series and only three men have accomplished this. They are Pat Daugherty of the Boston Americans in 1903; Harry Hooper of the Boston Americans in 1915 and Benny Kauff of the Giants in 1917.

Football Hurts Send Two Tiger Stars to Hospital for Repairs

COLUMBIA, Mo., Sept. 27. TONY BUNDSCHU, University of Missouri halfback, suffered a dislocated shoulder in scrimmage yesterday afternoon when he fell in an attempt to block a punt.

He will be out of the game at least a week, according to physicians.

Bundschu was sent to the university hospital, where he joined Chambliss, another varsity backfield candidate, who suffered a broken leg in scrimmage, last Saturday afternoon.

"Pepper" Martin Defeats Sullivan In Whirlwind Go

By Bert Igoe, The Post-Dispatch's Eastern Boxing Authority.

NEW YORK, Sept. 27.—Pepper Martin won the most thrilling battle of his tempestuous career when he earned the judges' verdict over Kid Sullivan at Elberts Field, last night.

Floored twice in the third round, he came on in magnificent fashion to win the hardest bout of his life. He dropped Sullivan in the eighth for a count of nine and then it was Sullivan's turn to show the stuff he is made of. Groggy and practically helpless, he got up and, with an astonishing display of grit, fought back like a tiger. At the bell he had turned the tide of defeat and sent Martin to his corner as groggy as himself. It was superb fighting, as courageous an exhibition as eyes ever looked on.

Martin won because of his ability to take what came his way with a grin. When he was dropped in the third round he refused to take a count, but bounded to his feet and went back at his man like one possessed.

Sullivan, not as speedy as Martin, was ever dangerous, with his right hand poised for a knockout. Martin had to travel like an express train to keep his chin out of range of that palmed bomb. Martin employed a sweeping left and right hook to the body and he used it so frequently that Sullivan was slowed to a walk at the end.

As a matter of fact Martin wasn't feeling any too chipper himself. The pace had been maddening and the

wonder of it all was that either man made the grade. Fights like this one do not grow on trees, we'll tell the world quite fairly.

FAVORITES WIN IN WOMEN'S NET TOURNAMENT

ARLINGTON, N. Y., Sept. 27.—Favorites advanced without upset yesterday in the third round singles of the women's invitation tennis tournament on the courts of the Ardsley

Club, for the trophy now held by Mrs. Mollie B. Mallory, of New York, national women's champion.

The title holder, who gained her fourth round bracket Monday did not play in the singles yesterday, but, paired with Mrs. Gouverneur Morris, she defeated Miss Florence Ballis and Miss Margaret Grove, of New York, in the first round of the doubles, 6-3, 6-3.

Miss Mary K. Browne, of Los Angeles, is expected to start play in the tournament today.

In the Matter of Clothes

Fine quality is the first essential—that's why we exercise such care in having our woollens woven to order especially for us by the finest Foreign and American looms; and by devoting our utmost skill in the designing, cutting and tailoring, we know they will retain the exclusive appearance which is soon lost in less perfect clothes.

Our prices are unusually low because we are content with a smaller profit than would be possible to a business of less volume.

Suit or Overcoat. Exceptional Values.

\$45, \$55, \$65 and Up

DECLINE IN PRICES OF STATE PRODUCE SHOWN FOR MONTH

Shipments of Fruit Difficult and Returns Unsatisfactory, Federal State Service Reports.

By the Associated Press.
JEFFERSON CITY, Sept. 27.—Missouri farm prices during September showed a tendency to decline, and the movement of crops was greatly retarded by the railroads. The situation was downward with the exception of a few commodities. Shipments of fruit were very difficult and unsatisfactory prices were offered, according to E. A. Logan and Jewel Mayes of the Federal-State Crop Reporting Service.

Of 45 products on which prices were obtained for both August and September, 1922, there were 20 that declined, a report issued by the service states. The remainder remained the same and 5 advanced. Beef cattle, yearlings and sheep advanced, but hogs and lambs were down, as were horses and mules. Corn, wheat and oats held their own, rye was up sharply, and the tendency was downward with the exception of prairie hay.

In dairy and poultry products all remained the same or advanced, with eggs making the best gain. Seeds were evenly divided, with clover and alfalfa showing a slight advance, and timothy seed upward. All fruit declined. Beans and cabbage advanced, but onions, potatoes and tomatoes declined. Of miscellaneous products, whitefish made a good gain, but tobacco was off, while other products remained about the same.

"Supplies bought by farmers declined somewhat during the past month. Alfalfa and timothy seed were higher, but clover seed dropped decidedly. Mill feed was low. Coal, gasoline and flour declined, but coffee and sugar were higher.

"Comparing September, 1922, with September, 1921, all livestock was the same or higher, except horses and mules. Corn, oats, prairie hay and timothy hay were above last year, but wheat, rye and alfalfa were lower. All dairy and poultry prices were less than in September, 1921. "Among farm seeds, cotton seed has made the greatest gain, and clover had shown the greatest decline. Prices of all dairy and poultry products were a year ago, except beans and onions. Miscellaneous products show gains in both wool and tobacco.

Lead, Zinc and Copper

NEW YORK, Sept. 27.—The American Lead and Zinc Company today advanced its price for lead from 25c to 26c. The same company today advanced its price for zinc from 25c to 26c. The same company today advanced its price for copper from 25c to 26c.

Man Shot in Kansas City Identified as St. Louisian

Photographs indicate victim of shooting in Saloon in Morris Moll, Often Arrested Here.

By the Associated Press.
KANSAS CITY, Mo., Sept. 27.—Photographs received from the St. Louis police virtually have identified a man giving his name as Morris Moll, 25 years old, who was shot in a saloon fight last Thursday, as the local police. He is in a hospital recovering.

Moll is a St. Louis police officer, having been arrested on connection with highway robbery and automobile thefts in 1919 and 1920. He was identified as one of the men who held up the passenger of the Kinloch Telephone Co. 16, 1920, taking \$3000 from him, but later was acquitted.

Man Bankrupt after 120 Years

By the Associated Press.
RICHMOND, Va., Sept. 27.—Baldwin Brown & Co., Inc., dealers in hardware and building materials, today went into voluntary bankruptcy here after operating for 120 years. Business depression and other reversals were responsible, it was said. The petition for the liquidation of the concern was filed with assets of \$12,478.50, with assets of \$12,478.50.

Incorporated
Franklin Bank Building
PHILADELPHIA
120 Broadway
NEW YORK
MARK C. STEINBERG & COMPANY
Members New York and St. Louis Stock Exchanges
Mezzanine—Boatmen's Bank Bldg., St. Louis, Mo.
Bonds offered when, as and if issued and accepted by us. All legal matters will be passed upon by Messrs. Alger & Coughlin, of New York, for the Company, and by Messrs. Van Vorst, Marshall & Smith and Messrs. Graham, McInnes, Bush & Knox, of New York, for the Bondholder. The books of the Sheffield Farms Company, Inc., have been audited by the Audit Company of New York.
From his letter, Mr. Loton Horton, President of the Company, summarizes as follows (the figures are as to net assets being as of June 30, 1922, after giving effect to present financing):
BUSINESS: Sheffield Farms Company, Inc., is one of the largest distributors of milk and dairy products in New York City. It handles an average output of over 500,000 quarts of milk per day. The Company represents a consolidation of three concerns, one of which began business in 1841 and the other two prior to 1878. It owns and operates 76 receiving stations located in New York, New Jersey, Pennsylvania and Vermont where milk is purchased from carefully selected dairies. In addition it owns and operates two large farms for the production of certified milk. For the scientific handling of its products it owns 13 modern pasteurizing and bottling plants, seven of which are located in New York City. Distribution is effected through the operation of 200 stores and 1,300 delivery routes, for which it is fully provided with modern delivery equipment. Sheffield milk, cream and other products are produced under the most sanitary conditions and enjoy the reputation of being of the highest quality.
SECURITY: These Bonds are the direct obligation of the Sheffield Farms Company, Inc. Except for miscellaneous real estate mortgages aggregating \$1,080,175 they constitute its only funded indebtedness and are a charge against net tangible assets of \$11,736,068, an amount equivalent to \$4,694 for each \$1,000 bond. Specifically, the mortgage will constitute a first lien on over \$5,000,000 of real estate, machinery and equipment, or at the rate of \$2,000 per \$1,000 bond; and in addition the mortgage will cover (subject only to miscellaneous real estate mortgages) all the real estate, machinery and equipment of the Sheffield Farms Company, Inc., and its subsidiary, the Louvain Construction Corporation, which is a party to the mortgage. The Net Current Assets of the Sheffield Farms Company, Inc., and the Louvain Construction Corporation alone amounts to \$2,549,720, or at the rate of \$1,019 per \$1,000 bond of the \$2,500,000 of this issue.
EARNINGS: Average annual net earnings available for interest charges for the 4 1/2 year period ended June 30, 1922, were \$721,230 or more than 4.4 times the \$162,500 annual interest requirement on the \$2,500,000 of bonds of this issue. Earnings for the first six months of 1922 were at the rate of over 5 times this requirement.
DIVIDENDS: The Company has paid regular quarterly dividends at the rate of 6% per annum on the preferred stock in every year since its issuance in 1911 and has paid dividends on the common stock in every year since 1903; dividends are now being paid on the common stock at the rate of 6% per annum.
PURPOSE OF ISSUE: The proceeds of this issue will be used to acquire additional properties and to provide the necessary working capital for the extension of the Company's business or for the retirement of existing obligations of the Company or its subsidiary, the Louvain Construction Corporation.
We Recommend these Bonds for Investment
PRICE 100 AND ACCRUED INTEREST, TO YIELD 6 1/2%
Bonds offered when, as and if issued and accepted by us. All legal matters will be passed upon by Messrs. Alger & Coughlin, of New York, for the Company, and by Messrs. Van Vorst, Marshall & Smith and Messrs. Graham, McInnes, Bush & Knox, of New York, for the Bondholder. The books of the Sheffield Farms Company, Inc., have been audited by the Audit Company of New York.
The statements contained in this advertisement, while not guaranteed, are based upon information and advice which we believe accurate and reliable.
September, 1922.
This advertisement appears as a matter of record only, all the above bonds having been sold.

France's picturesque astronomer, Camille Flammarion, who has just been appointed Commander of the Legion of Honor.

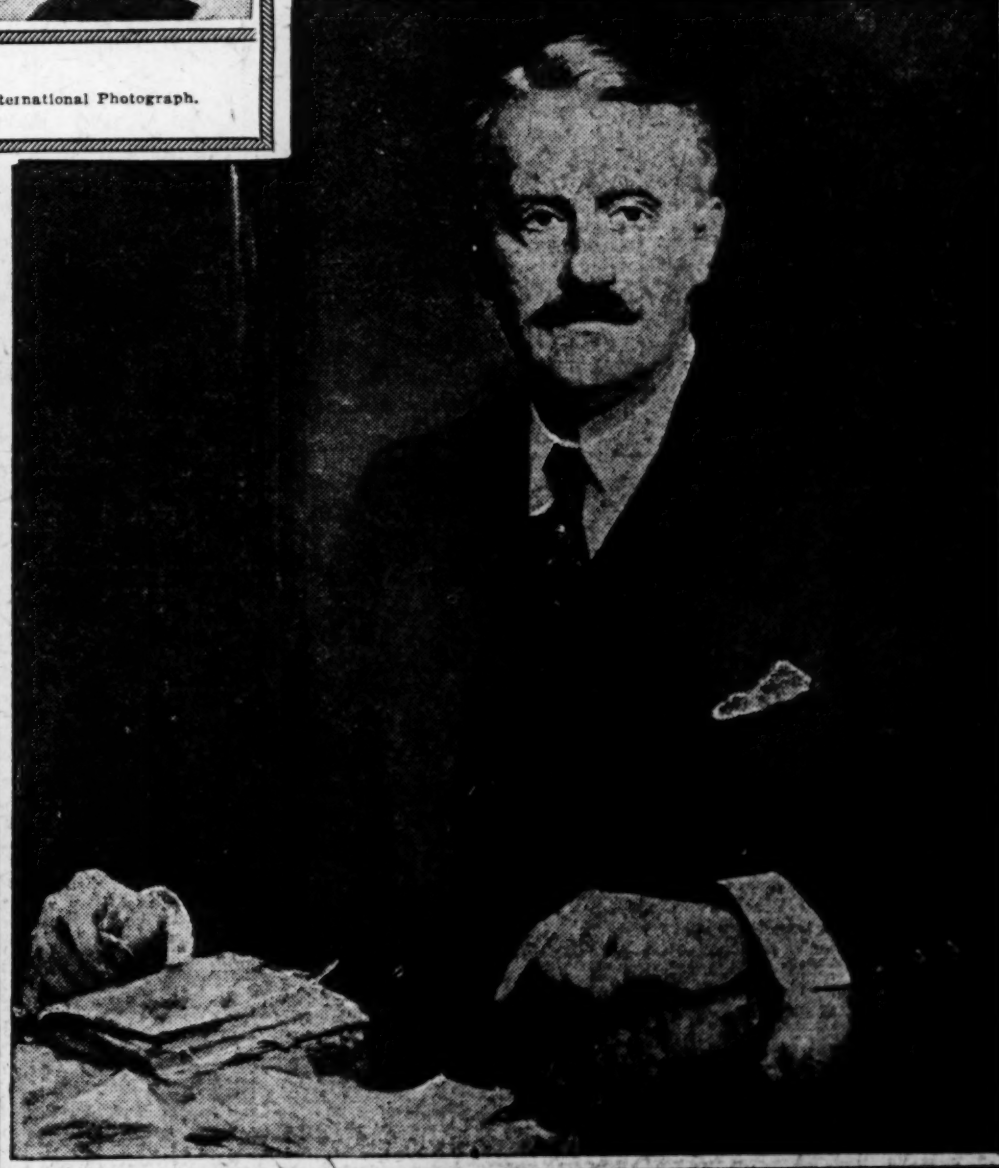

Lieut. Leigh Pettit Warren, who married Mrs. Stella Wade Scullin, daughter of Festus J. Wade of St. Louis, has just been assigned to duty at the Navy Department as aide to Assistant Secretary Theodore Roosevelt.

To the left: Lord Curzon, whom Lloyd George sent to France to handle the Turkish negotiations and to endeavor to get France back into line with the British in dealing with Kemal Pasha.

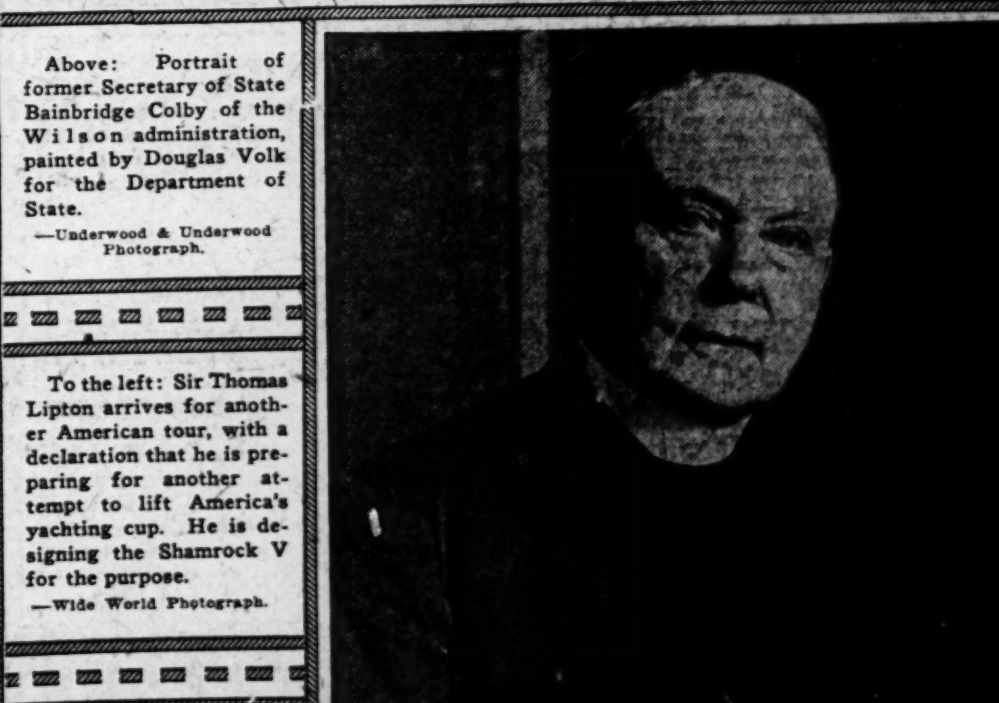

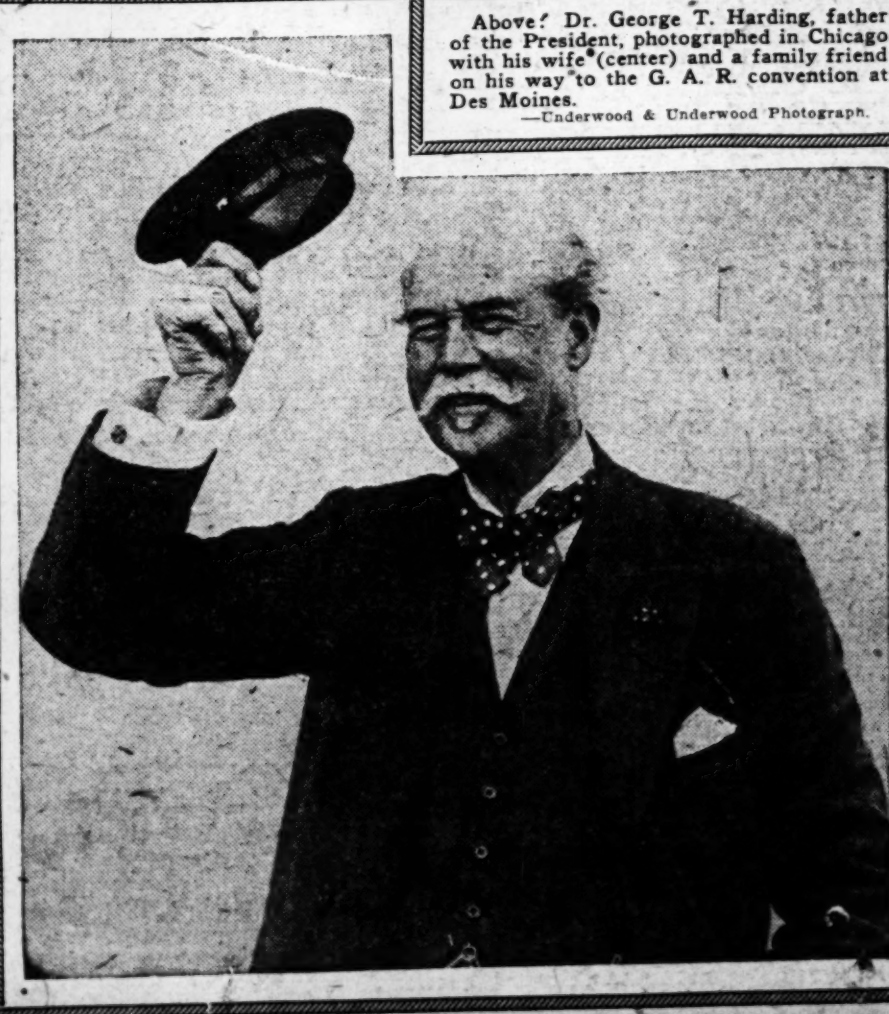

Below: Robert C. Morris, New York attorney, is appointed by President Harding to represent the United States before the Mixed Claims Commission to adjust our claims against Germany for losses by the depredations of German raiders during the war. These claims aggregate about \$300,000,000.

Above: Dr. George T. Harding, father of the President, photographed in Chicago with his wife (center) and a family friend on his way to the G. A. R. convention at Des Moines.

To the left: Photograph of the daughter of the King of Italy made on her twenty-first birthday, which she recently celebrated.

To the right: Bishop Thomas F. Gailor, of Tennessee, who has just been re-elected president of the National Council of the Protestant Episcopal Church in the United States.

SPORT SALAD

by L. C. David.

NEXT YEAR.

O H, somewhere in this favored land
The people shout and laugh,
And we will join 'em when we land
A first-class pitching staff.

Our Brownies can field and slug.
Are game as fighting cocks.
They'll win the pennant when they plug
That leaky pitching box.

They battled to the final ditch
And set the fans aflame;
But lacked the hurlers who could pitch
A full nine-inning game.

Although beneath the strain they broke,
Just take a tip from me,
And keep your eye upon their smoke
In nineteen twenty-three.

WELCOME.

The Refrigerating Engineers will
hold their convention here on Nov. 1.
Far be it from us to give them a
cool reception.

Bert Niehoff, manager of Mobile,
knocked a homer with three on in
the "Dixie" series and received a bag
full of money from the fans. Thereby
stretching a four-bagger into a five-
bagger.

Interest in the coming series be-
tween the Giants and Yanks for the
championship of Manhattan Island
is widespread. The interest extends
from New Rochelle to Newark, and
people are expected to come from as
far north as Albany.

The experts are divided as to the
probable outcome of the series; but
the consensus seems to be that the
championship will remain in Little
Old New York as long as the Gov-
ernment continues to issue money.

AS GOOD AS CRICKET.

THERE was a young boxer named
Siki.
Who hailed from a climate quite
stik.
The Senegalese
Waloped Carp with such ease
That his tactics appeared to be triki.

A DARK HORSE, TOO.

Battling Siki was sent against Car-
pentier as a trial horse. It was a
horse on Carp.

Carp claims he was kicked out.
The judges, however, say he had no
kick coming.

The man on the sandbox says you
can always depend on the Turks to
win by a nose.

Pretty soft for criminals in Cali-
fornia. Nobody gets hung but the
jury.

SLIPPING.

See where Constantine plans to
rally the Greeks. Better scatter a
little sand on the aisles of Greece.

About the only time Turkey gets
in the neck is on Thanksgiving day
and Christmas.

"Secrets of Tin Pan Alley Are Be-
trayed."
Must be a leak somewhere. Page
the tinner.

We take it the music for the ket-
tledrums is written in Tin Pan Alley.

China has authorized a \$10,000-
998 bond issue which, it is hoped, will
keep the Government intact for two
or three months. Indicating that
China is cracking under the strain.

EFFICIENCY.

"Make swell stenographers, Bill; wouldn't be powdering their
noses all the time."

MY FAVORITE STORIES

By IRVIN S. COBB.

THE WITHDRAWAL OF THE CANDIDATE.

When Miss Annie Oakley, the famous rifle shot, was traveling
through the country giving exhibitions of her skill at theaters, she
reached a small town in Texas; and her manager inserted an advertise-
ment in the home paper for a smart colored boy to assist in the per-
formance. Applicants were instructed to apply at the stage door of the
local opera house at 1 p. m. sharp.

When the manager arrived he found the passageway congested with
little negroes, each eager to testify to his smartness. He made a selec-
tion, picking out a spy boy of about 12. He took his applicant inside
and stationed him near the wings.

"You will stand right here and not move," he said. "When the
certain goes up, Miss Oakley will come out and talk to the audience
for a few moments. Then I will balance a small apple on your fore-
head and the lady will go over on the other side of the stage and shoot
it off."

The candidate grabbed for his hat, his eyes wildly rolling in search
of the nearest path to safety.

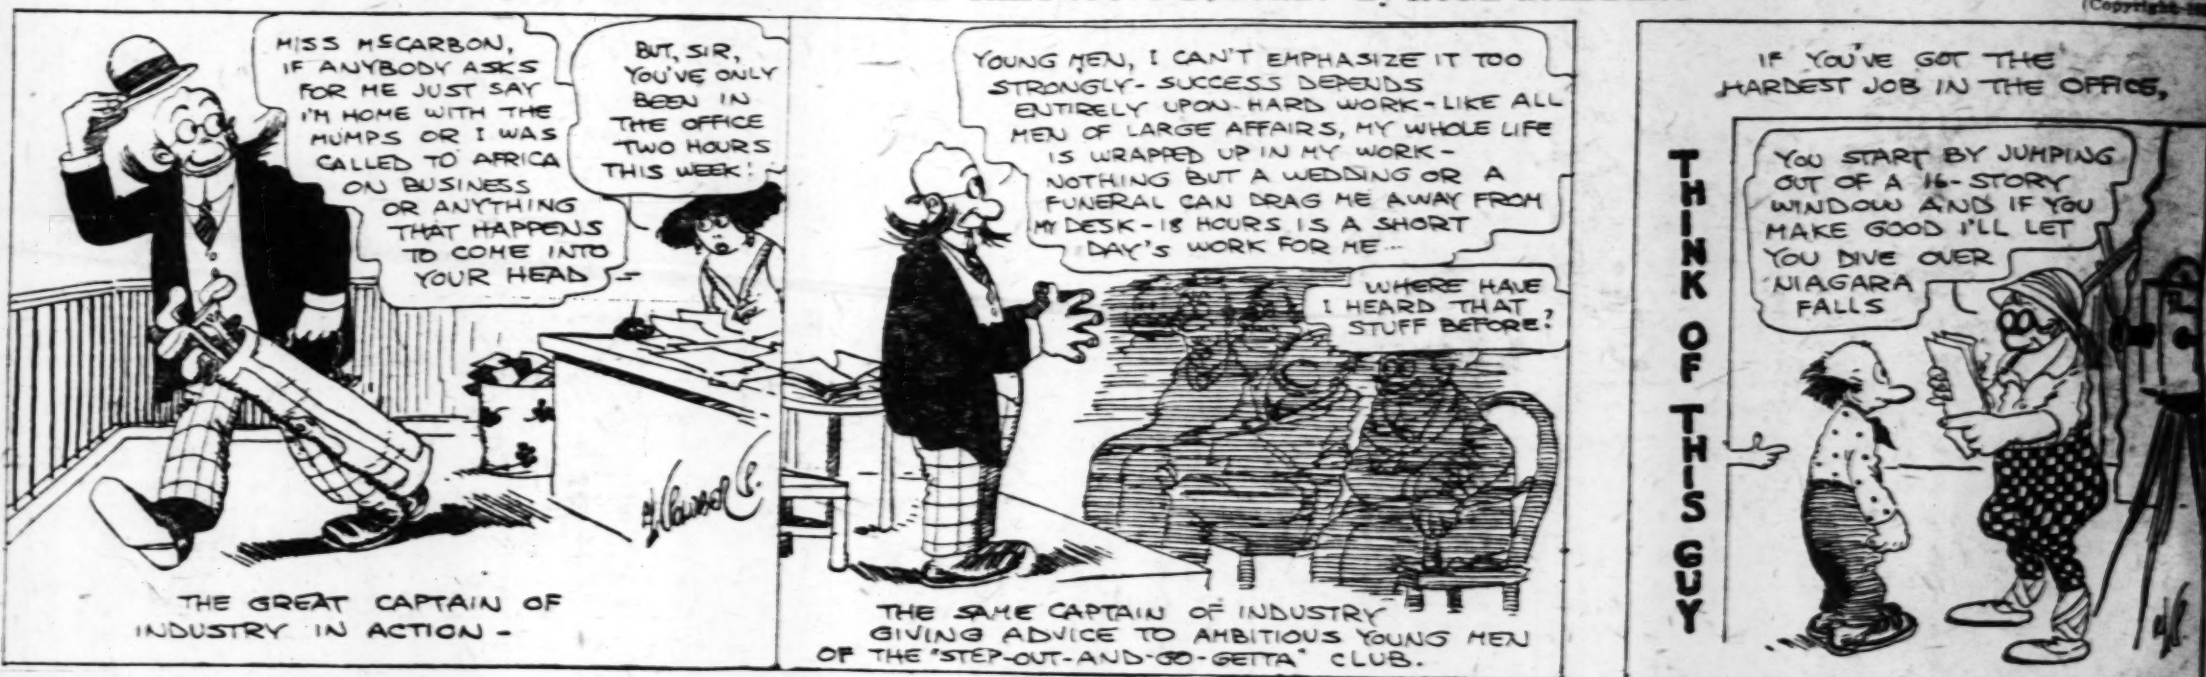

"Hishah," he demanded, "who's goin' to shoot whut apple off
whats head? Me? Why I wouldn't let mah own mammy shoot no apple
off mah head, let alone it's some stranger!"
And he was gone.
